

**PRACTICALLY SCARING
SNOW INTO THE DITCH.**

Thirty-three inches high at the moldboard and 10' across, the **Arctic XHD-P** is a step-up from the Arctic HD-P and Arctic HDXL-P models. Eight vertical ribs, a 50" double plate, reinforced quadrant and frame combination, plus the slick poly blade mean that you – not Mother Nature – decide where winter is going to be.

8 LASER-CUT, STEEL REINFORCING RIBS
back our frictionless poly moldboard with the strength of steel

6 TENSION SPRINGS
keep the blade upright and offer ample room for addition of a shock absorber kit, if desired

3/8" POLYETHYLENE MOLDBOARD
throws snow further and faster resulting in less resistance and vehicle wear and improved fuel economy

6" DEFLECTOR
keeps snow down on the blade and away from the driver's windshield

HOT-DIPPED GALVANIZED STEEL FRAME
provides added resistance to abrasion, water and rust, making our plows virtually maintenance free

DOUBLE LIFT CHAINS
for extra lift strength and safety

A 50" DOUBLE PLATE REINFORCED QUADRANT
and 2 1/2" X 2 1/2" X 1/4" tube A-frame with a 1" greasable king bolt give this plow tremendous strength

DISH-SHAPED SKID SHOES
improve surface clearance while plowing forward

1/2" X 6" HARDENED HIGH CARBON STEEL CUTTING EDGE
with top hole bolt pattern

MEET THE REST OF THE ARCTIC PRODUCT LINE

WHY CHOOSE POLY?

Arctic's high density polyethylene moldboards combine the durable, slick characteristics of poly with advanced blade design mechanics to throw more of even the stickiest, wettest snow further and faster. This not only results in more snow being moved more quickly, it also minimizes forward resistance – meaning decreased wear on power trains and increased fuel economy. **Contact your Arctic Dealer to learn more about the high-tech, low-maintenance benefits of poly.**

M3593 SERIES HYDRAULIC POWER UNIT

The M3593 electric hydraulic system, with a 2" x 6" lift cylinder offers proven performance and reliability. Compatible with the Hi Boy mounting kit, this power unit has one of the highest outputs in the industry. Standard operating pressures are 2200 psi and the crossover relief valves are set at 3000 psi. This pump is compatible with all of our control systems.

QUIK*LINK® III MOUNTING KIT

Featuring an adjustable jack stand, our mounting systems allow you to remove the entire plow assembly as a single unit with the lift frame intact. Arctic's QUIK*LINK® III system makes the already-simple mounting system even easier to use by replacing the two mounting pins with a simple single, spring-loaded locking bar.

ARCTIC XHD-P SPECIFICATIONS

Plow Name	XHD120-P
Length	120"
Moldboard Height	33"
Material	3/8" Poly
Plowing Width (Full Angle)	104"
Complete Weight	*1126 lbs
Mounting Type	Detachable
Removable Lights and Power Unit	Yes

*Weight does not include frame mounting kit

STANDARD CONTROLLER

HAND HELD

This ergonomic controller has 4 rubber faced buttons, and a float light in the middle. An automatic shut-off eliminates accidental use or drained batteries.

MPX WIRING

MODULE CONTROL SYSTEM

Easier installation, Universal Wiring Harness and Control Module to allow the use of different Arctic Snowplows simply by changing controllers. (note *) Vehicles and plows must be MPX system compatible). Required for most newer vehicles.

OPTIONAL ACCESSORIES

SINGLE HALOGEN BULB
(H9003)

DUAL HALOGEN BULB
(H7, H1)

EXTEND. BL. GUIDES

LICENSE PLATE BRACKET

SHOCK ABSORBER KIT

QUIK*LINK® is a registered trade-mark of Arctic Equipment Manufacturing Corporation.
