

SASQUATCH 23

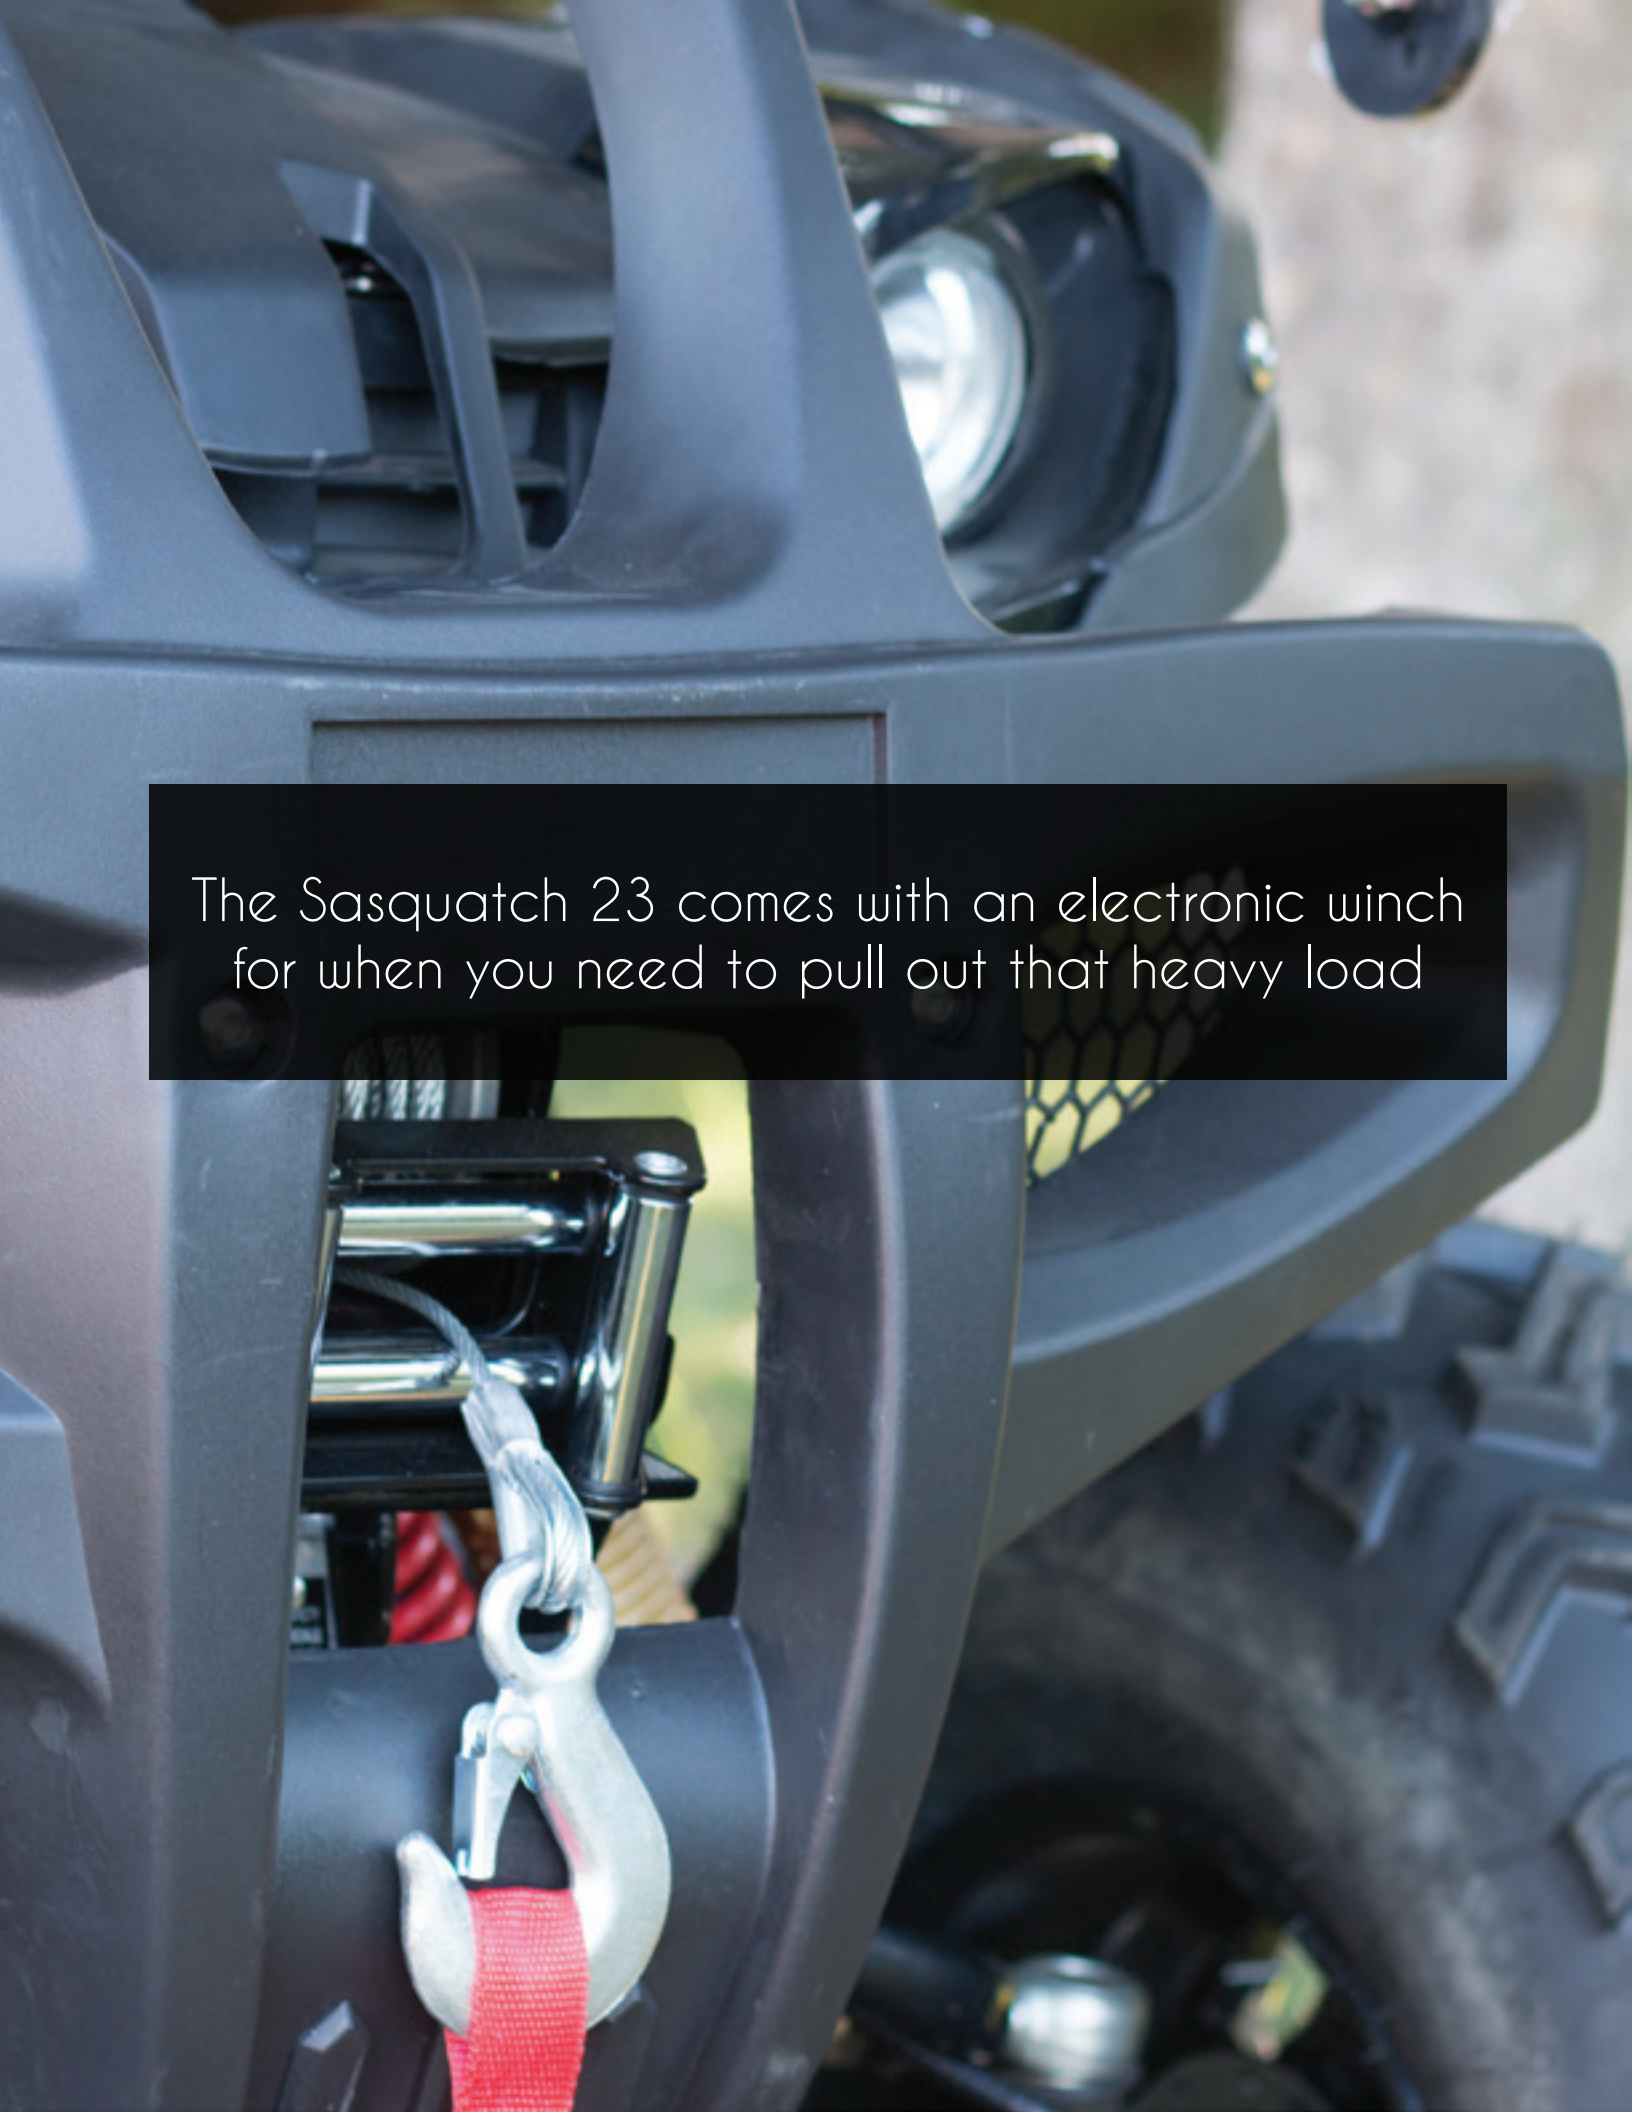

GO OFF ROAD

The Sasquatch 23 is the 4th iteration of the Sasquatch line. This full sized ATV features 23 inch tires perfect for taking anything you can throw at it. The 60V 20AH battery pack makes the SAS 23 get speeds of up to 35 km/h with no noise or air pollution whatsoever. Perfect for the environment, the Sasquatch 23 is the future of ATVs

THE UTILITY ATV

The Sasquatch 23 comes with a rear ATV mount perfect for carrying heavy loads from your cottage or wherever you may be. With the rear mounted hitch, attach a trailer for even more cargo room for all your needs.

The Sasquatch 23 comes with an electronic winch for when you need to pull out that heavy load

BLUETOOTH POWERED

The Sasquatch 23 comes with the Daymak Drive Turbo controller. Increase the acceleration curve lock the motor to prevent theft and rolling. Limit the speed for novice riders and more all with a Android smartphone app.
