

SCRAPE TWICE, ONCE

This two in one combination of leveling and scraping makes short work of your grading jobs. The first blade attacks the high spots cutting them down to size, the second blade further scrapes anything the first missed and fills in the hollows. With two blades cutting and filling it takes much less time and fewer passes to achieve the even distribution of material you are looking for.

The scraper can be 3PH mounted, or an optional skidsteer adapter plate puts the work in front of you.

MK GRADER LEVELER

With two half inch reversible hardened cutting edges material is quickly leveled or redistributed to fill low points as the the unit passes.

Model	Width	Weight	
		3PH	Skid Steer
578	5'	498 lbs.	585 lbs.
678	6'	598 lbs.	702 lbs.
778	7'	697 lbs.	820 lbs.
878	8'	797 lbs.	936 lbs.
