## Premier Hydraulic Post Driver

The Premier Post Driver is a high-quality attachment designed for performance, flexibility and quality results. With 4 different energy class models and numerous potential options, we can provide a post driver solution for just about any job.

Each model is available in three configurations:

### **BASIC POST DRIVER**

As the name implies, this is great for basic post driver jobs and is ideal for most all conditions.

### **EARTH AUGER PRE-DRILL**

This post driver comes equipped with an integrated planetary earth auger system that can be used to pre-drill a pilot hole if the soil conditions are rocky, frozen, or too difficult to simply drive the post into the ground. This system comes complete with a 4" carbide rock auger and has the capacity to drill up to an 18" diameter .

### **COMBO DRIVER/BREAKER**

This model has the flexibility to become a concrete breaker as well as a post driver. With additional mounting locations, the mounting bracket can be moved to the top to allow this unit to be used as a concrete breaker. It comes complete with the appropriate post pad as well as a concrete chisel.

Whether you want to drive posts with mini-skid steers, mini excavators, backhoes, track loaders or skid steers, Premier Attachments has a post driver to fit your needs. Each model comes pre-charged from the factory and includes a Tool Box and full bottle of nitrogen for recharging. Each model has two options: Earth Auger Pre-Drill and Combo Driver/Breaker. Available models listed below.

### **PD500**

- Energy Class: 500 ft/lb
- GPM: 10-16
- Driving Cup Diameter: 6"
- Min Machine Operating Capacity: 500
- Base Model Weight w/Mini-Skid Steer Mount: 400
- Required Excavator Operating Weight: 5,000 – 13,000 lbs
- Shaft Dia: 2"
- Available Mounts: Mini-Skid Steer Mounts, Bobcat MT Mount, Mini Excavator Mounts

### **PD750**

- Energy Class: 750 ft/lb
- GPM: 12-20
- Driving Cup Diameter: 8"
- Min Machine Operating Capacity: 1,400
- Base Model Weight w/Universal Skid Steer Mount: 1,200
- Required Excavator Operating Weight: 7,500 – 15,000 lbs
- Shaft Dia: 2-3/4"
- Available Mounts: Skid Steer Mounts, Excavator Mounts

### **PD1000**

- Energy Class: 1,000 ft/lb
- GPM: 15-25
- Driving Cup Diameter: 9"
- Min Machine Operating Capacity: 1,800
- Base Model Weight w/Universal Skid Steer Mount: 1,350
- Required Excavator Operating Weight: 9,900 – 18,000 lbs
- Shaft Dia: 3"
- Available Mounts: Skid Steer Mounts, Excavator Mounts

### **PD1500**

- Energy Class: 1,500 ft/lb
- GPM: 19-29
- Driving Cup Diameter: 10"
- Min Machine Operating Capacity: 2,500
- Base Model Weight w/Universal Skid Steer Mount: 1,750
- Required Excavator Operating Weight: 15,000 – 25,000 lbs
- Shaft Dia: 3-5/16"
- Available Mounts: Skid Steer Mounts, Excavator Mounts
