

COMPACT TRACTOR

Seeder level controls proper amount of seed released.

Large 5 3/4 bushel hopper

3-point hitch for tractors in addition to skid steer mounting plate

Removable rakes included (not shown)

3-Point Landscape Seeder

The Landscape Seeder, a bi-directional seeder, is built to handle all turf and landscape seeds. Grass seed is a very expensive commodity. Notched rollers properly place the grass seed in the top 1/2" of a properly prepared seedbed, resulting in maximum seed germination. Seedbed is left smooth and firm with small stones pressed down. Because of this precision placement seeding rates can be reduced up to half of the rates previously used.

SPECIFICATIONS / OPTIONS

Model	Landscape Seeder
Part Number	900812
Overall Width	88"
Overall Height	34.5"
Seeding Width	72"
Opening Spacer	3"
Hopper Capacity	5.75 bushels
Approximate Weight	1,400 lb.
Options	
Acre Meter Package	

Turn your tractor into a turf and landscape seeding machine.

FEATURES

- Front rollers crush lumps, press down small stones, and form a firm seedbed
- 3-point hitch for tractors and mounting plate for skid steers
- Notched rollers place most of the seed at a depth of 1/2"
- Sight glass in the seed box gives the operator a view of the seed level
- Unique agitator brake system that eliminates unwanted seed loss while the seeder is not in contact with the ground
