

# 5' & 6' MOUNTED MIN-TILL

Designed for tight areas where big drills simply don't fit, these 5' and 6' Min-Till Drills from Great Plains are ideal for seeding food plots, orchards, and vineyards. Offered with ground-driven meters, they are excellent for seeding into

both fully prepared seedbeds or minimum tillage plots. The vineyard model's (3P500V) low-profile box is designed specifically for vineyards and orchards.

## 00 SERIES OPENER

00 Series openers provide accurate and consistent seed placement. 00 Openers have 7" of stagger, allowing residue to easily flow through the unit. Inside the opener, the full-length seed tube gently guides the seed all the way to the bottom of the trench while the seed flap ensures the seed stays in place, eliminating the "seed bounce" experienced with competitive drills. The trailing press wheels maintain proper opener depth, close the seed trench, and firm the seed into the soil.
