## POLYETHYLENE RESERVOIRS

## **POLYETHYLENE BOX**

Muncie's all polyethylene box reservoirs are designed with easy installation in mind. The lightweight box style requires only two metal straps and saddles for installation on the chassis frame rail. Intended for use in intermittent-duty applications where heat buildup is not an issue, but accessibility is required. This tank is light enough to ship via U.P.S., yet still strong enough to have a greater impact resistance than metal. The super strong reservoir is molded in one piece to prevent leaks, stress cracks, and contamination from welding slag. All tanks come with a diffuser, gauge, bolted mounting, and optional high-flow capacity.

MODEL	VOLUME	PORTS	FILTER	DIMENSIONS	WEIGHT
P035B2AAGXY	35 GAL.	2	-	21"L X 23"W X 21.75"H	30 LBS.
P035B2AAGNY	35 GAL.	2	STND.	21"L X 23"W X 21.75"H	30 LBS.
P050B2AAGXY	50 GAL.	2	-	31"L X 23"W X 22"H	55 LBS.

Notes: 1. Standard port size is 2" NPT. 2. Weight includes mounting kit.

## POLYETHYLENE UPRIGHT

Muncie's all polyethylene upright reservoirs are designed to be the quickest and easiest to install hydraulic reservoir regardless of size or material. This tank is intended for use in short-duty applications where heat buildup is not an issue. Our tanks are light enough to ship via U.P.S., yet still strong enough to have a greater impact resistance than metal. The super strong reservoirs are molded in one piece to prevent leaks, stress cracks, and contamination from welding slag. Muncie has provided polyethylene reservoirs to our satisfied customers for more than 40 years. All tanks come with a diffuser, gauge, bolted mounting, and optional high-flow capacity.

MODEL	VOLUME	PORTS	FILTER	DIMENSIONS	WEIGHT
P050U2AAGXY	50 GAL.	2	-	36.4"L X 14.5"W X 27.75"H	67 LBS.
P075U2AAGXY	75 GAL.	2	-	46.5"L X 18"W X 34.5"H	67 LBS.

Notes: 1. Standard port size is 2" NPT. 2. Weight includes mounting kit.
