

# JBS TANDEM WIDE BODY MANURE SPREADER

**JBS** ltd.  
J. Bond & Sons Ltd.

The JBS Tandem Wide Body Manure Spreader is built for spreading big loads. The tandem axle is available 20 – 24 feet long, it is 7 feet 4 inches inside, and has a carrying capacity of 65,000 lbs and can spread up to 55 feet wide. The Tandem Wide Body can spread all types of manure and comes standard with a guillotine gate and a Vertimax attachment with dynamically balanced twin vertical augers. The dual floor drives, low friction UHMW floor, and long lasting composite floor shaft bearings help this spreader to unload quickly and evenly. The 26 ton tandem spring suspension helps to ensure great handling and great maneuverability.

- Auger gearbox protection via Shear bolt
- Reversible cutters
- Size 8 CV head on tractor PTO shaft
