

MAXIMUM CAPACITY. MINIMAL FOOTPRINT.

If you work in trenchless technology, you know that making a big impact with a small footprint is the name of the game. When it comes to no-dig solutions, we're leading the way with an innovative line of high-capacity truck vacuum excavators built to conquer tough underground infrastructure jobs with minimal impact to the world above it.

With spoil tank capacities from 1,300 gallons (4,921 L) to 16 yds³ (14.6 m³), each vac is packed with decades of industry insight, production expertise and leading-edge technology. Plus, they're supported by a single-point, full-line network of more than 120 North American dealerships.
