## Ideal for Organic and No-till Farmers.

The Crush Rite reduces the amount of crop inputs for both economic and environmental reasons. This innovation will help any farmer who wants to prevent soil erosion.

## Naturally Tough.

- Control weeds in fields left fallow without the use of chemicals.
- Kill, knock down, and crush cover crops before planting your main crop.
- Crimp and crush tough stubble to help it break down before the next growing season.

## FORWARD™ Unfolding System.

The patented unfolding system goes from transport to field mode in minutes while moving forward.
