MARLON MCTD MOTORCYCLE TRAILER SPECIFICATIONS

The Marlon MCTD Motorcycle Trailer designed to haul two full size bikes or 3x dirt bikes or 1 bike in the centre of the trailer. The MCTD is built with a 2200 lb torsion axle which provides a low riding easy loading smooth ride for your prized bikes. The MCTD Trailer is built using a fully welded heavy-duty steel tube frame with aluminum diamond plate floor and a flip up rear that locks to the frame to reduce its size when stood up to be stored. The MCTD Trailer comes standard with 13" 5 bolt Aluminum Mag Wheels and Radial tires.

ST175/80R13C Alum mag wheels.

Loading ramp is bolted to underside.

Rear loading ramp.

Flip up rear that locks to frame to reduce the size.

Trailer easily stands on end for easy storage.

DOT approved LED lighting.
