SNOW PLOW

Model	ND420	ND540
-------	-------	-------

Dimensions

Working Width	42 inches	54 inches
Angled Width	36 inches	47 inches
Weight	165 lbs	190 lbs

Ventrac ND Snow Plow Blades have working widths of 42 and 54 inches (107, 137 centimeters). Adjustable skid shoes accommodate plowing at selected heights, such as moving snow on gravel driveways.

The blades can be operated in a trip position for plowing or in a locked position for digging into material.

Ventrac SSV ND Snow Plow Blades are versatile, labor-saving attachments designed for any number of jobs. Whether plowing snow, moving material, or cleaning an area, the Ventrac ND series blades are up to the task.

TRACTOR COMPATIBILITY KEY:

SSV
