## THE LIGHTEST TRAILER ON THE NORTH AMERICAN MARKET!

At Armorteck, no matter your field of activity, we believe that using the most technologically advanced and component-wise trailer on the market will improve your performance at all levels. With an all-aluminum structure paired with the new HEXACORE technology, new laminated composite panels reinforced with polypropylene honeycomb cores, Armorteck trailers are the lightest in North America!

**Armorteck, the perfect combination of durability and lightness. Welcome to a world of innovation ... Welcome to Armorteck!**

### THE HEXACORE TECHNOLOGY INNOVATIVE FEATURES:

- The lightest and most durable trailer on the market
- Translucid roof effect
- Easy washable from the outside as from the inside
- Hardly scratched and resistant to impact
- Fully recyclable material
- When you will drive it... you we feel the innovation

## DIFFERENCE IN 15 POINTS

- 1 Aluminum extruded rear cap with galvanized steel gusshets.
- 2 Aluminum extruded structure that joint the wall and the roof together that make it stronger than any trailer on the market.
- 3 One piece wall of 1" honeycomb panel that can withstand a high impact. **HEXACORE TECHNOLOGY**
- 4 Heavy duty aluminum door stopper.
- 5 Electrical junctions box easy to reach and use.
- 6 100% aluminum frame
- 7 Voltflex sealed connector that stay flexible at -40 Celsius / -40 Fahrenheit (7 years warranty).
- 8 One piece of non-skid floor 7/8" honeycomb panel.

- 9 Leaf or torsion Dexter axels.
- 10 One piece roof of 1" honeycomb panel that allow you to walk on the roof whitout any risk of breaking somethings. **HEXACORE TECHNOLOGY**
- 11 Exterior and interior led light.
- 12 Premium radial tire.
- 13 Aluminum hardware on all models.
- 14 Evo 3.0 rear loading and back up light installed on all models.
- 15 Dura-flap technology eliminating piano hinge (Ramp Door).
