# SYNERGY COMMUTER LOW STEP

MODEL NUMBER  
SYN-CLS500

COLORS

TOP SPEED  
32 KM / 20 MPH

BATTERY RANGE  
50+ KM / 31+ MI

FRAME SIZE  
18"

## POWERFUL 500W MOTOR

The Synergy Commuter Low Step comes equipped with a 500W Geared Hub Motor. Combine that with the S-ride drive-train, a hydro-formed aluminum frame and 26" wheels you've got yourself the ultimate commuter e-bike. The Low Step configuration allows rider an easy and safe way of getting on and off the bike making this bike versatile for any rider.

**IMPORTANT:** When parking your SYNERGY COMMUTER, we recommend you lock your battery by setting it on **locked** position, then remove the key.

## BATTERY

The battery is the main energy source of your SYNERGY COMMUTER, so be sure to treat it with care at all times. We recommend that you recharge it only with the charger provided with your SYNERGY COMMUTER.

### BATTERY FUNCTIONS

1. There are three key positions – **on**, **locked** and **unlocked**.
2. When the key is turned to the **unlocked** position, the battery is ready to be removed.
3. In the **locked** position (which can be found by turning the key one click from the unlocked position), the battery cannot be removed, and the motor cannot be switched on.
4. In the **on** position (which can be found by turning the key two clicks from the unlocked position), you have full use of your bike's electronic components. When the key is in the **on** position, turn the motor and LCD screen on and off by pushing the power button on the display.
