

GATOR™ FULL-SIZE XUV SERIES

Crossover Utility Vehicles

JOHN DEERE

RUN WITH US

Meet the powerful beasts—with creature comforts to spare

Brute power comes standard with our Full-Size Gator™ Crossover Utility Vehicles. The three-seater is built for serious payloads and incredible pull. The gas or diesel engines bring strength and performance when it counts. So carrying a full day's load, towing, or working any attachment is second nature to this predator.

SEATS 3, PLEASES ALL

Stretch out in this Gator XUV's roomy, comfortable cab and still bring an impressive towing capacity and payload capacity to your workday. Both the M- and R-trim vehicles feature wiring harnesses configured for easily adding attachments like lights and backup alarms. Take your pick:

- **M-Trim Models**—step up to power steering with a smooth, automotive-like driving experience whether you're loaded down in the field or on the trail. Standard spray-in bedliner, brake and taillights complete the heavy-duty cargo box. Available in open station or with an optional cab that features HVAC.
- **R-Trim Models**—enjoy creature comforts year round with the Premium R Cab. Our quietest cab yet includes standard cargo box power lift, a headliner, cloth seats, post covers, rear panel, sun visors, dome light, rearview mirror, and LED headlights.

Engine

54-hp (40.3 kW) gas-powered with three cylinders, 12 valves and Dual Overhead Cams (DOHC) deliver the power and torque to get the job done. Electronic Fuel Injection (EFI) self-corrects for altitude from base camp all the way to the summit.

Automotive Style Braking

Massive twin piston hydraulic disc brakes bring you to a complete stop. The single piston rear brakes help you stay in control.

Cargo Box Power Lift

Effortlessly raise and lower the cargo box, from the comfort of your seat, with a flip of a switch. Standard on all R-Trim Models and optional on others.

CARGO BOX MEETS OUT-OF-THE-BOX DESIGN

Deluxe cargo box can be easily configured to carry practically any load, even cumbersome ones. A host of standard load management tools ensures this beast is designed to work.

- Standard rear taillights, brake lights and spray-in bedliner (M- and R-Trim Models)
- 14 tie-down points
- Tie-down bars on each side of box
- Tailgate can be opened with one hand
- Flatbed mode conversion for oversized, awkward cargo, because not everything fits in a box.
- Cargo box power lift lets you empty a load from your seat, standard on all R-Trim Models

Cold Weather Starting

No matter the temperature outside, the XUV835 is ready. It has been tested to quickly start in -20 degree Fahrenheit (-28.9 degrees Celsius) temperatures—proving it's part gator, part abominable snowman.

Independent double-wishbone suspension
Impressive front and rear suspension travel, 8-in. (20.32 cm) front and 9-in. (22.86 cm) rear, makes traversing over rocks, stumps and streams feel like a day at the golf course.

High-strength steel A-arms
These heavy-duty units provide balance, strength and weight, for true-durability on rugged terrain.

High ground clearance
11.2-inches (28.4 cm) of ground clearance prevents the Full-Size XUV from getting high centered even on extremely uneven terrain.

Greater Gator UV.

From now on, when you think Gator™ UV, think comfort. Because our roomy, 3-passenger factory installed cab is loaded with enhancements that'll make you love going to work. From side mirrors for superior visibility to cargo box power lift, so you can empty your load without leaving your seat, the Gator UV re-defines comfort. And since you use your Gator UV year round, heat and air-conditioning is standard, too. Enjoy the extras without the upcharge.

Upgrade to an R-trim with our quietest cab and you'll enjoy cloth seats, headliner, post and rear panel covers, rearview mirror, sport steering wheel, sunshades and LED headlights. No more negotiating with Mother Nature, you can handle whatever she has in store for you.

Power Steering

Standard on the M- and R-trim models, power steering provides effortless automotive-like handling and outstanding durability on the most rugged terrain. Add to that, our smoothest-shifting Gator UV yet and you have unbridled performance and handling.

Easy-to-Read Dash Panel

Colorful and a breeze to read, vehicle indicator lights let you see everything from speed and RPMs to gear position. There's even a service interval indicator to keep you up-to-date on maintenance.

Shift Control Lever

With an integrated park position, there's no more releasing a separate park brake. And talk about precision shifting, this is our smoothest shifting Gator UV yet.

Instant 4WD engagement and electronic differential lock

Enjoy instant 4WD traction with the flip of a switch, and when the going really gets tough, flipping the switch to lock the rear differential is just as easy.

Cargo Box Power Lift

Empty your load with the flip of a switch, the Gator XUV does the heavy-lifting for you. When the load is empty flip switch again to put down the cargo box.

16 gallons (over 60 l) of storage

Glove box is perfect for sunglasses and work gloves. Under-seat storage can be loaded up with a small toolbox, lunch and even extra cargo straps.

4WD meets room for 4.

Engineered with people and performance in mind, these are the most comfortable, smoothest operating 4-passenger Gator XUVs ever. Every inch and element have been crafted to work hard on your behalf, day after day, job after job. Both models deliver impressive handling and maneuverability, in the field or on the hunt.

But let's talk engine power. The XUV825M S4 has a 52-hp (38.8kW) gas engine, so hauling anything—people or cargo—is a snap. For those who prefer diesel, the XUV855M S4 is a powerful performer, too, with a *22.8-hp (17.0 kW) diesel engine.

Their cargo box includes 14 plus tie-downs, and the tailgate will remind you of your pickup. So managing and dumping a load is just as easy as carrying one.

That's the beast side. Now here's the beauty. These crossovers are flat-out fun to drive. More motorsport than moving van, we've loaded each down with enhancements to help take the work out of your workday. A fully independent suspension means a super smooth ride throughout.

Say hello to your XUV MVP.

Engine

Powerful gas-powered engine starts when you do, no matter the season. Cold weather? No problem, engines are tested to start in temperatures as low as -20 degree Fahrenheit (-28.9 Celsius).

Easy-to-Read Dash Panel

Colorful and a breeze to read. Indicator lights let you see everything from speed and RPMs to gear position. There's even a service interval indicator to keep you up-to-date on maintenance.

Instant 4WD engagement and electronic differential lock

Enjoy instant traction with the flip of a switch. Electronic differential lock button gives you a more automotive feel for instant engagement at your fingertips.

Cargo box lights and liner

Let everyone see where you are in dark and early dusk with rear brake and taillights. Standard spray-in cargo box liner keeps your hardworking cargo box looking new..

Extra Cargo Space with Folding Rear Seat

We don't sacrifice storage capacity to carry more passengers. Flip up the rear seat bottom, there's plenty of storage underneath. Not hauling anyone? Fold down rear seat back and carry extra cargo.

More People. More Gear. No Problem.

Keep gear secure and make loading easier. Tie down bars on the cargo box sides work well with the 14 different tie-down points. Remove the cargo box sides and convert to flatbed mode.

OPTIONS AND ATTACHMENTS

FACTORY OPTIONS

Green & Yellow
Included in the base price on all Full-Size XUV models.

Olive & Black
Available as an option on M and R Trim Full-Size XUV Models..

TrueTimber® Kanati®
Available as an option on M and R Trim Full-Size XUV Models..

Alloy Wheels
Customize your Gator™ UV with these sharp-looking 14-in. (35.5-cm) wheels. Black Alloy Wheels go perfect with the Olive & Black or the TrueTimber® Kanati® machine color choices.

Yellow Alloy Wheel
Trick out your ride and compliment the Green and Yellow machine color choice with optional yellow 14-in (35.5 cm) alloy wheels.

Premium Protection Package
Upgrade your 3-passenger XUV with 360-degree protection. Front Brush Guard and Extensions, Rear Bumper, Rear Fender Guards and Rear Fender Flares. Help keep your vehicle looking like the day you brought it home

Maxxis Bighorn 2.0 extreme terrain radial tires
Take on extreme terrain and laugh in the face of Mother Nature's toughest trails. Front: 27X9-R14, Rear: 27X11-R14

Predator Heavy-Duty all-terrain radial tires
These heavy-duty all-terrain radials are specifically designed to a longer life on hard surfaces and intermediate off-road usage. Front: 27X9-R14, Rear: 27X11-R14

Warn® Winch
The 3,500-lb (1587 kg) and 4,500-lb (2041 kg) winches pull their own weight and then some. Easily mount with the Winch Mount Kit and add a wireless remote control for additional convenience.

*AUTOTRAC™ READY OPTION

Give your tractor a rest. With the AutoTrac-Ready Option, you can use your Full-Size Gator™ XUV to create more accurate boundaries, set up A-B lines, flag obstacles, and more. Wiring and plug-ins are factory integrated to easily add a StarFire™ Receiver, a Gen 4 Display, and a 4G MTG (modem).

**Available on 3 passenger Full-Size UV's with cab.*

FIELD ATTACHMENTS/ACCESSORIES

Brush Guard

Protect your front end from whatever comes your way and keep your vehicle looking sharp with a front brush guard. Need access to the hood? No worries, this brush guard pivots forward with a quick pull of pins.

Windshield

Keep dirt and bugs off of your face with an optional windshield. Standard wiper blade and windshield washer ensures that you always have a clean, clear view to your path.

Drawbar

Add increased towing capability to your Full-Size XUV with a Drawbar and optional Ball Mount. Makes trailering quick and easy.

Turn Signals

Don't let busy worksites create chaos, signal where you're going with turn signals. These front and rear signals are controlled by backlit switches on the dash. A separate hazard switch alerts others when you are stopped.

Radio

Crank it up. All heavy-duty AM/FM radios include: AM/FM antenna, weatherband and an auxiliary input. Other units also include Bluetooth® wireless technology and SiriusXM® satellite radio.

LED Work Lights

Shed some light on your work. LED lights feature a flood beam pattern and 1200 lumens per light. They easily mount on a brush guard or the front/rear of a cab. Kit includes 2 lights.

Side Tool Rack

Keep your long-handled tools within arm's length, organized and ready-to-go. Easily and securely carry trimmers, shovels and rakes. Holders are adjustable to carry a wide array of items on the rack.

Front Hood Rack

Easily haul more gear with this convenient 49-in. (124.5-cm) long x 14.25-in. (36-cm) wide x 4.25-in. (11-cm) deep-sized rack. The 100-lb (45.4 kg) payload capacity rack mounts to a brush guard.

Toolboxes

Side- and Top-Opening Toolboxes keep your tools organized and dry. Sealed doors also feature a lockable latch for extra security.
