

OCEAN PRO

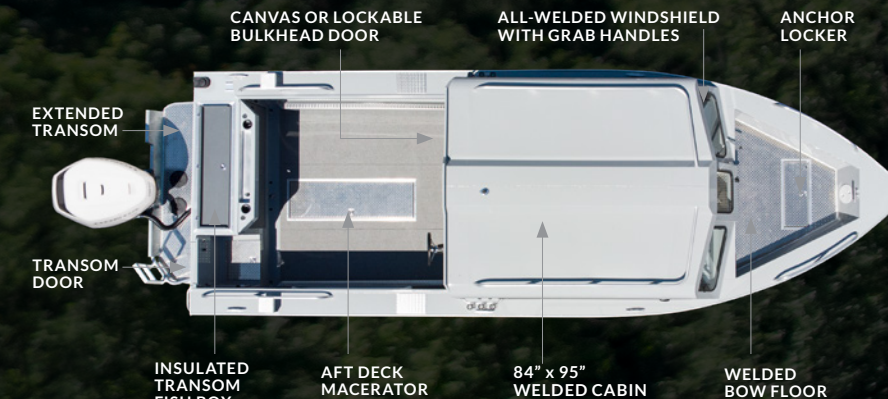

220|240

Take the rugged, variable-deadrise hull of the Hewescraft Sea Runner, and add size. The exceedingly capable Ocean Pro is deeper, half a foot wider at bottom and beam, and 1-5 feet longer than the already-tough-to-beat Sea Runner. The Ocean Pro's added width provides excellent stability on plane or at rest, and the Ocean Pro's massive 100-gallon fuel tank gives you the invaluable safety of added range. When you want an ocean-ready 22- or 24-footer that will take you just about anywhere, there's value—and then there's Hewescraft Ocean Pro value.

240 OCEAN PRO
