

INTERIOR TRIM LEVELS: VNL

OVERVIEW

Volvo has completely re-engineered our interiors to provide the industry's best driving environment.

The VNL Series is offered in three interior trim levels, each with a multitude of color and material options. All three levels provide a comfortable work environment that can withstand the most demanding applications.

CHOICE

Our most popular interior, Choice is our standard trim level and provides dark or light interior options with Choice Vinyl seats in Lennox Ivory or Espresso Brown.

TOURING

The Touring interior is our mid-level option. It offers design touches like Dark Zebrano accents and our attractive, durable Touring Fabric on the seats and wall panels.

LIMITED

Offering the ultimate in interior styling, Limited is our premium level interior. It features eye catching Light Barcelona accents on the dash, door and cabinets. Seats and interior panels are covered with Volvo's exclusive Limited Fabric.

All three levels offer additional premium seating options in Modura, Cordura and Leather.
