POLAR KRAFT

JONS

Are all Jon Boats the same? Most people think so, but when you've been fine tuning and tweaking your Jon Boat design and construction for more than 65 Years - like we have been at Polar Kraft - we say "No, All Jon Boats are Not the Same!" Ours are better - because we handcraft each one and test it to make sure that it is worthy to carry the Polar Kraft name.

	J1648	J 1448	J 1436	
JONS	LENGTH	16'	13' 11"	14' 3"
