# EXPLORE MAX DUAL ENGINE

## FLOOR PLANS

### SWITCHBACK

Available in 24' and 26'

### NAVIGATOR

Available in 24' and 26'

## FEATURE HIGHLIGHTS

### MAX Deck

The low profile of the Rotax S frees up the space usually lost by a traditional outboard engine. This allows the MAX Deck to unlock up to 6 ft. of length (55 sq. ft./5 sq. m), 2 additional feet compared to our single Rotax S option, providing more usable space at the stern than ever before!

### Dual Rotax S 150

The seamless integration of the dual Rotax S engines offers a smooth and incredibly quiet ride at any speed. With the dual Rotax S 150 option, you get 300 HP plus the added power and control of dual engines.

### iDock Joystick Piloting

The Explore MAX dual engine model comes standard with the iDock joystick piloting system. This intuitive and fully integrated system gives you complete confidence when docking and manoeuvring at close quarters.

### Enhanced Digital Dash

Every Explore MAX dual engine model comes standard with a 12" Garmin digital display featuring Garmin Boat Switch and a custom Garmin home page.

### Trifold Bench x 2

The Trifold bench provides a seamless transition between a bench, table, and open space. This model comes standard with two Trifold benches, one on each side, providing twice the amount of table space under the cover of the Bimini.

### Upgraded Sound System

The Explore MAX Dual Engine model comes standard with an upgraded Fusion RA-670 stereo unit, four 6" Fusion XS speakers, two 4" Fusion XS Helm Speakers, Fusion 8 channel amp and subwoofer.
