// FEATURE HIGHLIGHTS

1 REV Gen5 trail platform

A sleek design that brings a whole new level of refinement, performance and good looks to the trails.

2 Rotax 600RR E-TEC engine

Built with racing performance in mind, the 600RR E-TEC powerhouse delivers a sharp 20% more throttle response, instantaneous power delivery with 5 additional HP for a total of 130 HP and an air-fuel ratio precisely optimized for peak efficiency.

3 RAS™ RX front suspension

Conquer every inch of the most challenging trail conditions with unbreakable confidence with race-inspired RAS RX front suspension. Designed specifically for rough trail performance with less chassis roll for unrivaled cornering stability.

MXZ X 600RR E-TEC SHOWN

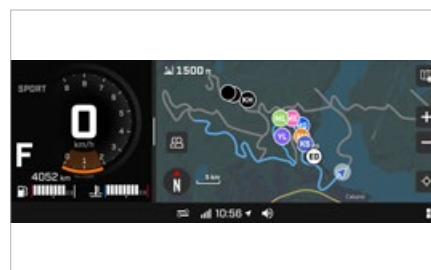

4 Trail performance seat

Engineered for trail riding, the new seat features an upright design for better posture, reduced forward tilt for enhanced stability, and optimized firmness for solid support. A slightly wider profile adds comfort without sacrificing performance.

5 Rack steering system

Further increases steering precision at higher speed for a stable and predictable ride in less than ideal snow conditions.

6 10.25 in. Touchscreen Display with BRP Connect, featuring Built-In GPS with Group Ride

View the live location of members of your group while independently seeing other riders around, without the need for a phone connection or cellular network access. Benefit from a map layer and trails,* track your current ride and see previous. For more, use your phone with the free BRP GO! app.
