Industrial Oil & Grease Remover

Industrial Oil and Grease Remover is designed to work on petroleum-based oils and greases typically found in factories, such as cutting oils, lubricants and metal coatings. This product is designed to quickly break up the oils and suspend them in order to rinse easily and prevent them from re-depositing. The result is an oil/grease-free surface. Industrial Oil and Grease Remover is engineered to pass through a pressure washer without damaging the high-pressure pump. It is safe to use on aluminum, stainless steel, concrete, glass, plastic and painted surfaces.
