

PLANTER PERFORMANCE UPGRADES

05 SERIES

KINZE
TRUE. BLUE. Advantage.

TRUE planting performance.

Spend less time in the shop and more time in the field with the 05 series planter enhancements. Double the acres between service intervals with upgrades to row unit wear points for improved durability and ease of maintenance. **With an enhanced seed delivery system, plant more crop types, seed sizes, and increase your speed.**

05 SERIES

Common features on both 4005 and 3005 series row units

- Hardened, replaceable large diameter double parallel arm bushings have more wear area and are oil impregnated for double the wear life and to eliminate parallel arm replacement
- Inner scraper material upgraded for double the wear life
- Load equalizing gauge wheels for uniform depth control, even in heavy residue or rugged planting conditions
- Down force options depending on configuration: True Depth hydraulic, pneumatic or springs

4005 Row unit

1. Cast iron shanks for greater reliability and durability
2. 12" of row unit travel ensures ideal seed depth in varying terrains
3. Double parallel arm bushings with larger wear areas to eliminate arm replacement
4. Double row bearing disc opener for increased durability
5. Improved scraper material lasts two times longer than the '00 Series inner scraper

3005 Row unit

1. Heavy duty shanks with triangular reinforcement to max side-load strength
2. 10" of row unit travel to handle changing field conditions
3. Double parallel arm bushings with larger wear areas to eliminate arm replacement
4. Double row bearing disc opener for increased durability
5. Improved scraper material lasts two times longer than the '00 Series inner scraper
