

BR5100
REVERSIBLE COMPACTOR

OVER 11,000 LBS
 OF COMPACTION
 TO TACKLE YOUR
 MOST DEMANDING
 APPLICATIONS

With high-quality construction, Bartell compaction can stand up to whatever your job requires. The BR5100 is the largest reversible plate compactor in Bartell's fleet, offering high compaction force and travel speeds to help you accomplish your jobs quickly and effectively.

FEATURES

- Fully hydraulic reversing mechanism with flexible maneuverability allows the machine for forward, backward, and spot-on compaction
- Cast aluminum throttle lever for a more professional, stronger, and durable for tamping
- Full roll cage and built in lifting bale for increased engine and guide hook protection
- Cast aluminum belt cover for increased clutch and engine longevity
- Ductile iron bases for increased strength
- Wheels that flip down for easy transportation
- Optional extension plates and urethane mat options available
- Full speed in both forward and reverse
- Specialized for compacting sand, trench, and patching
- Key start or recoil start

TECHNICAL SPECS

Engine	Yanmar (Diesel)
Spec	L100W
Power Output	9.3hp (6.9kW)
Compaction Force	11,244 lbf / 50 kN / 5100 kgf
Max Travel Speed	72'/min (22m/min)
Length	65" (1610mm)
Width	20" (500mm)
Height	37" (930mm)
Weight	1036lbs (470kg)
Plate Size	20" x 36" (50 cm x 90 cm)
Base Material	Ductile Iron
