FLOW-THROUGH MILK YIELDS

FloSmart

FLOW-THROUGH MILK YIELDS

With it's advanced technology, the FloSmart provides milk yield accuracy. Bring the new standard of herd management to your dairy with features like temperature and conductivity!

The FloSmart is packed with features and doesn't restrict milk flow - preserving the highest quality milk, and harvesting gently, quickly and completely!

- **No restrictions** – With BouMatic's flow-through design there are no restrictions in the milk flow path; will easily handle high milk yielding cows
- **Durable** – No moving parts or diaphragm to maintain
- **Milk Yield Accuracy** – Milk measurement provides milk yield accuracy (not ICAR approved)
- **Easy to Clean** – With no restrictions or moving parts, the unit is cleaned easily, and will take less chemicals to clean because it does not need to be filled and dumped
- **Compatibility** – Works with BouMatic shutoff valve for new or retrofit applications; pairs with TouchPoint™ or ViewPoint™ detacher systems
- **Cow Health Monitoring** – FloSmart has the ability to provide temperature and conductivity data to our SmartDairy®
