Plate Cooler

FAST, EFFICIENT

MILK COOLING

BouMatic Plate Coolers are unrivaled for fast, efficient milk cooling and will use your well water or chilled water for the most effective milk cooling.

For fast, efficient milk cooling.

- **Helps preserve milk quality** – Inhibits bacteria growth by cooling milk fast
- **Saves energy costs** – Precools milk with well water and reduces energy requirements from refrigeration system
- **Grows with your dairy** – When more cooling capacity is needed, more plates can be added
