CHLORINE DIOXIDE

TEAT DIP AND BARRIER

Teat LC™

CHLORINE DIOXIDE

TEAT DIP AND BARRIER

Teat LC is the toughest teat conditioner for the toughest environmental conditions.

- **Versatile protection** – Use in a dip cup or a quick drying, non-sticky spray, ideal for free-stalls using sand bedding
- **Superior film-forming barrier** – Teat LC Post helps prevent bacteria from entering the teat canal until next milking
- **Protects between milkings** – Easily removed at next milking, reactivates when exposed to moisture
- **Skin-Conditioning** – Emollients for the ultimate in skin care hyperkeratosis control, lactic acid helps exfoliate dead skin and remove excess keratin
- **Lasting** – Post teat conditioner will stay active for 48 hours after mixing; Pre-Post formula stays active for up to 72 hours after milking

Teat LC™ Post is formulated to handle the toughest environmental conditions while keeping teat skin soft and smooth. And it forms a long lasting barrier to help prevent bacteria from entering the teat canal between milkings.
