

Serving the agricultural producers since 1970!

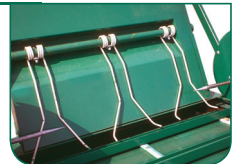

MOTORIZED ROUND BALE UNROLLER

Model for « Roto Cut » bales

- Unrolls the bale in front of the animals.
- Easy to load because of the built-in winch, the steel hooks and the loading ramps stored on each side of the unroller.
- Telescopic arms adjustable to the size of the bale.
- Mechanical conveyor equipped with teflon plates preventing the premature wear.
- Four 12" directional front wheels.
- Shield preventing the accumulation of hay in the front wheels.

Bale separator comb increasing the grip of the conveyor on tight rolled bales.

18" disc insuring a good grab on the bale for a complete unrolling.

Foldaway protective wire netting for the driver.

Exclusive parallel deployment of the arms for even unrolling.

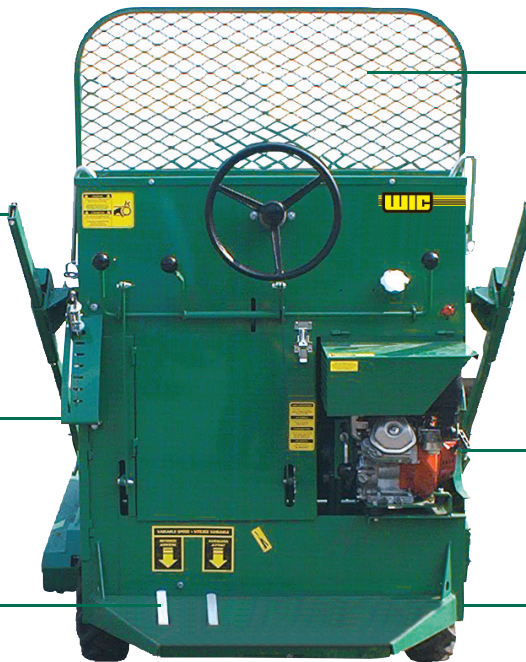

Multiple position lever

Honda 9HP gasoline motor.

Variable forward and reverse speed.

Cleared and skid-proof running board.

MOTORIZED ROUND BALE UNROLLER

Model for standard bales

- Foldaway protective wire netting for the driver.
- Variable forward and reverse speed.

Unroller cart	40" (1m)	60" (1,5m) without handle	36" (90cm)	76¾" (82cm) rotation axis	18¾" (47cm)

WIC Warranty

All WIC products have a one-year warranty (tires and labor not included) against all manufacturing defects. WIC reserves the right to modify manufacturing and specifications of its products without notice or incurring the obligation to effect those changes on products already sold. This warranty is valid under normal use for which the machine was made.

WIC Liability

WIC, its dealers and/or agents cannot guarantee individual results from the use of the WIC equipments due to factor beyond our control. Even if the WIC equipments are very safe when operation procedures are followed, accidents which may occasionally result from equipment failure are not liable to WIC. The security use of this equipment does not eliminate all the risks connected to its use.
