// FEATURE HIGHLIGHTS

1 Rotax 600 EFI engine

600cc-class fuel-injected engine delivering 85 horsepower and outstanding economy at an incredible value. Design based on the 600R E-TEC® with proven reliability and ease of ownership at its core with an outsized fun factor.

2 Electric start

Saves time and energy, adding immense value for the rider.

3 cMotion rear suspension

Crossover-specific suspension uses best principles of the rMotion™ trail and tMotion™ mountain skis for confident cornering and agile boondocking.

4 RAS X crossover front suspension

An updated version of our RAS X trail front end for capability on- and off-trail. Light steering feel optimized for crossover usage with adjustable stance.

5 Pilot DS2 skis

Single keel with excellent sidehilling bite, thanks to thin outer edges. Narrow and thin, yet stiff. Shorter behind the spindle with flat tail for easier counter-steering and sidehilling.

6 Ergo-step side panels

Design offers natural progression to any of three riding positions for cornering on-trail, from neutral to extreme-forward position.
