

PROV

When ample work, play, and fishing space is essential to your days on the water, the Hewescraft ProV is the perfect platform. The ProV features a forward-justified console design that provides more than 85 square feet of cockpit space. The ProV's available extended transom provides even more space by keeping your outboard engine completely outside the full gunwale-height enclosed transom, so your trimmed-up engine will never crowd you again. When you want to spread out, relax, and fish rather than trip over your gear and your crew, the roomy Hewescraft ProV is essential.
