Process & distribute

One step Bedding, Feeding and Spreading

Load the bale into the Tomahawk Turbo Mill and set the tractor PTO running. Direct drive to the mill rotor is engaged and the onboard pump provides hydraulic power to the booster fan. Designed to process and distribute baled material with a moisture content up to 20%.

Set

- Select the appropriate screen in the mill ($\frac{3}{8}$ " - 2") to produce the length of material required.

Process

- Engage the tractor PTO and the high speed turbo fan delivers processed material at a high rate for the operator.

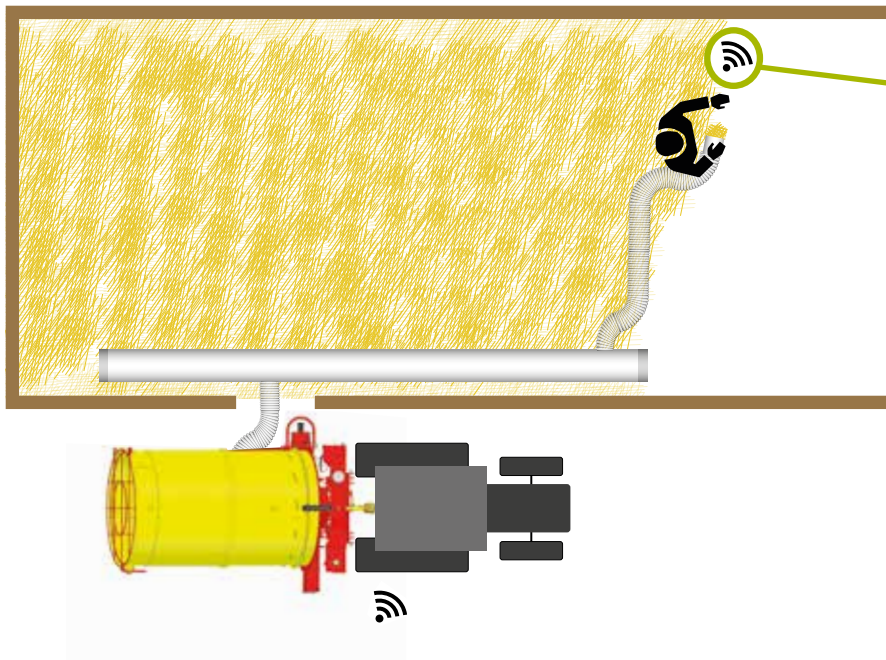

Distribute

- The high speed fan can be connected to various delivery systems. e.g. 5" diameter pipe/manifold.

Controlled Environment with the Tomahawk 500B Mill

Process material outside, distribute inside. A quick fit connection to the Tomahawk outside enables bedding material to be spread with a flexible tube or fixed manifold system. Disturbance of livestock is minimised, and the risk of biocontamination is reduced.

Remote Control

Remote control up to 330ft away from the tractor enables the operator to start/stop the flow of the straw.

500B

SUITABLE FOR: Poultry and cubicle bedding, pre-processing for TMR and crop mulching.

Capacity (Max)	Tractor HP (Min)	Material output
5500 lbs per hour	120	$\frac{3}{8}$ " - 2"

The consistent performer

One step processing for round and rectangular bales of dry material to a consistently short length.

The independent hydraulic system is PTO driven and features an on-board pump, tank, filter and fan cooled radiator with remote start/stop control.

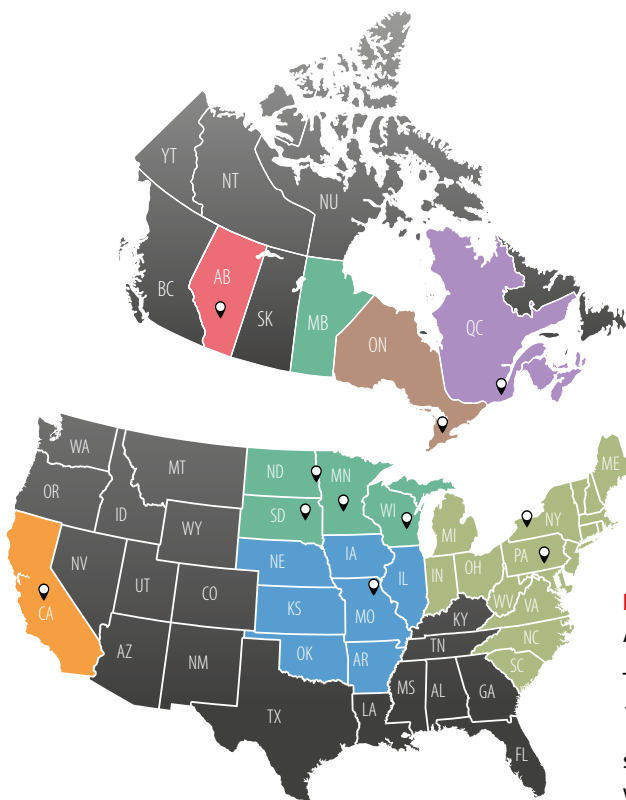

SPECIFICATIONS	505M	505XLM
Maximum Round Bale Diameter	60"	60"
Maximum Rectangular Bale Size	n/a	48" x 48" x 96"
Drum Diameter (Internal)	72"	72"
Drum Length (Internal)	60"	118"
Overall Height (resting on the ground)*	96"	110"
Overall Width (chute closed/open)	110"-123"	110-123"
Overall Length	100"	156"
Weight	3064 lbs	3700 lbs
Minimum tractor power required**	120hp	120hp

*Working heights will increase by up to 40" depending on tractor linkage.

Teagle

With over 30 years experience designing, manufacturing and supporting The Tomahawk range of Bale Processors, Teagle has established a reputation for performance and reliability, offering feeding and bedding solutions for all applications.
