## TOP SOIL SCREENER

## Advantages:

5 year's experience using competitor's models and our earlier prototypes (approximately 200 MT processed prior to arriving at our own design.)

Fast, convenient moving, insert loader bucket into twin forks on discharge side.

Also twin loops for chain lifting at approximate balance point.

Oli vibrator 110V standard, purchaser to complete electrical wiring for their requirements and local codes. Can be operated with 110 extension cord, generator or inverter.

Screen hinge pins mounted in rubber blocks (use of isolating rubber mounts

Vibrator frame and tension springs mounted in rubber blocks.

reduces vibration loss through main frame keeping as much vibration on the screen area as possible)

Screenings drop into ample holding area approximately 9 feet wide x 4 feet high for easy access with buckets up to 8 feet wide.
