THE FIRST 50 YEARS

50 YEARS, 3 GENERATIONS, 1 FAMILY

Our Founders. Dean & Gloria Rabitsch

In 1966, Dean and Gloria Rabitsch moved to Monticello, Georgia, where Dean began managing the Monticello Bobbin Company. During this time, he developed an interest in plastics and started Monticello Industries. After years of running both companies for others, he decided to pursue his passion for plastics full time. When his attempt to purchase Monticello Industries was declined, he made the bold decision to venture out on his own.

The original Poly Tech building - Kelly, GA.

In 1975, risking everything, Dean and Gloria purchased the old Perry General Store in Kelly, Georgia, and founded Poly Tech Industries. That location remained the company's home until the current facility was built and opened in 1995.

Originally established as a plastics machine shop serving a variety of industries, Dean soon focused on helping Georgia farmers utilize a material new to agriculture: UHMW polyethylene. His first major success came with the moldboard plow cover.

In March 1988 he was awarded a patent for his Poly Combine Skid Covers, followed by another in 1992 for a John Deere specific poly skid shoe. These innovations helped pave the way for the widespread use of UHMW in agriculture, a material that remains a staple in the industry today.

Dean & Jimmy at a farm show with the Poly Moldboard Plow Cover

Tammy officially joined Poly Tech in 1989 and today is an active owner serving as VP Sales as well as in customer service and accounting.

After growing up in the business and gaining experience in another industry, I returned in 1991. I'm now an active owner, involved in general management, product development and sales.

Our younger sister Patty joined the company in 2007. She's also an active owner, contributing to customer service, accounting and advertising.

We're proud to have a third generation family member, Shawn, serving as our Production Manager.

Another longtime employee Pat has been with Poly Tech since 2001. If you've been to our booth at a farm show in the last 24 years chances are you've met him.

So when you call Poly Tech you're not just talking to an employee, you're talking to family. Someone who understands what it's like to be an independent business person like you.

Pat's 20th Anniversary at Poly Tech

This company was started as a Christian business and is run that way today. Our father always prayed for three things: Our Business, Our Country and the American Farmer.

THE FIRST 50 YEARS

(IN PICTURES)

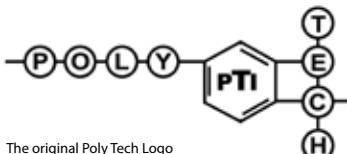

We want to sincerely thank everyone who has been a part of the first 50 years, all the employees, customers, vendors, friends and family. We look forward whatever God has in store for us next. - Jimmy Rabitsch

Employee dinner in the original shop.

Poly Tech's first CNC machining center.

Outdoor shows are always an adventure.

POLY LAST™ TUBE LINERS

Custom Tube Liners Up To 16" Diameter and 102" Long

- Comes pre-assembled for quick and easy installation.
- Can be installed without removing auger in most applications.
- Restores worn housing to "like new" condition.
- Self adjusts to accommodate worn or new housings.
- Stainless steel hardware for extended service life.

Available diameters: Custom fit from 8" to 16"

Available lengths: from 18" to 102" in 2" increments.

CUSTOM TUBE LINERS

Diameter	Price
8" - 9 3/4"	\$127.00 ft.
10" - 11 3/4"	\$135.00 ft.
12" - 13 3/4"	\$162.50 ft.
14" - 16"	\$201.50 ft.

*Depending on dimensions, custom liners are subject to oversize shipping charges.

**Combines, Grain Carts,
Transport Augers...
Anywhere There's
Tube Wear!**

TFDMK01 - Tube Liner Measuring Kit - \$10.00

The Tube Liner Measuring Kit contains a gauge that allows you to measure the inside circumference of your tube. Once you have returned the completed gauge and information sheet we can custom cut a liner to fit your tube in lengths of 18" to 102" in 2" increments.

TANK FILL TUBE LINERS

COMBINE 

Designed for a custom fit in worn or misshaped tubes!

- Installs in about an hour.
- Restores worn housing to "better than new" condition.
- Adjusts to accommodate worn or new housings.
- Stainless hardware for extended service life.

**Patented Design
for a Custom Fit!**
US Patent No. 8,720,491

**Liners on this page are available in longer lengths upon request.
(May be subject to oversize shipping charges)**

ALL POLY SKIDS ARE NOT CREATED EQUAL

It's true. You can buy other poly skids. But, if you're interested in the long term profitability of your operation, you'll want to get the facts before you spend your hard earned money. Poly Last™ combine skids from Poly Tech are designed to fit better and wear longer than any other poly skid.

The fact that longer wear life is better is simple enough. What most people don't think about is: Why fit is so important! The primary purpose of poly skids is to allow your header to ride directly on the ground without sticking or pushing. This allows you to harvest more of your crop, especially the portion growing closest to the ground. The cutter bar reaches its optimum cutting depth just above the surface of the ground. Very much like a quality razor produces a close shave, you want to eliminate as much stubble as possible.

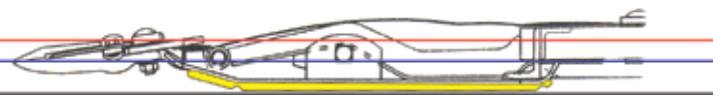

Other poly skids can fit poorly causing a gap between the poly and the steel. As dirt and trash are trapped, a packing effect begins to push the poly even further away from the steel. The distance between the poly and the steel (as much as 1/2" or more) is what keeps your cutter bar from reaching its optimum cutting depth.

Poly Last™ skids have a glove fit to eliminate the gaps that cause problems. Your combine head is free to ride the ground and your cutter bar can reach its optimum position next to the ground. Your crop goes where it belongs: in your grain tank and ultimately in your bank account.

Poly Last™ Combine Skids FIT BETTER & WEAR LONGER

Competitor's Fit - Gap raises cutter bar and wears quicker.

Poly Tech Fit with Patented "Living Hinge"
Gets low and wears even.

Ask For Poly Last™ Combine Skids with the "Living Hinge":

			APCO900	Left Front End Shoe	\$20.00

FULL SIZE STABILIZER COVER! *ALSA included with Case 1020 Kits!*

Improve the performance of your factory skid shoes with our Poly Last™ Stabilizer Covers. Simply remove the existing stabilizer cover and replace with the Poly Last™ cover. The best improvement you can make!

The full size stabilizer cover is designed to prevent buildup where the competition falls short. It completely covers the A frame and provides one continuous shoe virtually eliminating areas where buildup and bunching occur. The front of the cover fastens to the top side of your metal skid shoes and the rear is suspended by chains. This allows the skid to float over the ground and provides easy access to the underside for routine inspection and maintenance. Each Case combine header kit comes with a full size stabilizer skid that covers the ENTIRE metal A frame under the end shoes.

ALSA...Left Stabilizer Cover...\$125.00 ARSA...Right Stabilizer Cover...\$108.00

POLY LAST™ COMBINE SKIDS

POLY LAST™ COMBINE SKIDS

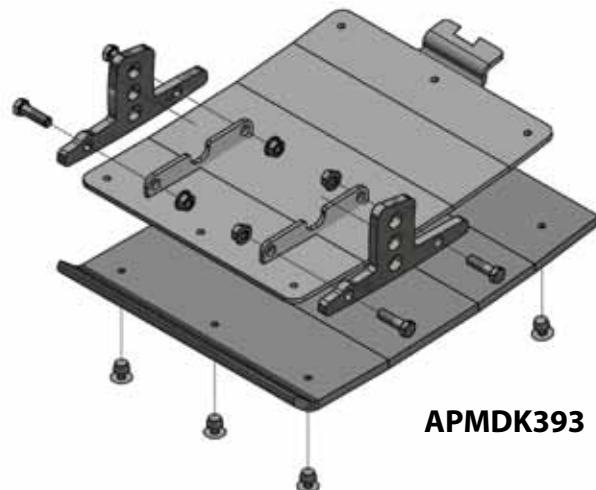

COMBINE 

Mac Don D65 & FD75 Center Shoe

Part #	Description	Price
APMDK393	3/8" x 11 7/8" x 15 5/8" Mac Don Shoe Assembly Kit Replaces Molded Part #125393 and uses existing Lugs.	\$145.00
APMDP393	3/8" x 11 7/8" x 15 5/8" Mac Don Replacement Shoe - Poly Only	\$51.00

Uses existing OEM lugs.

Premature wear at the lug location is a common problem with the factory skid. Our new design with a larger steel plate distributes the load to keep the poly from prematurely wearing through at lugs.

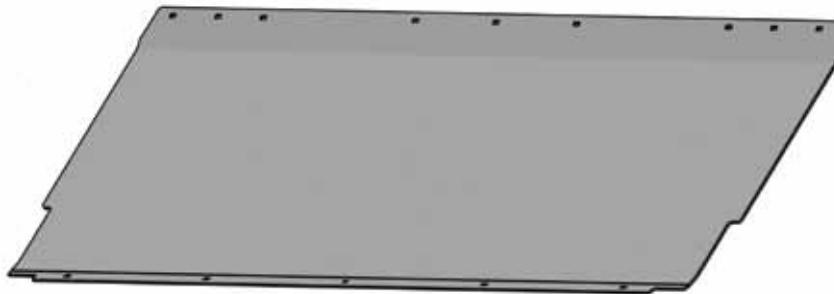

APMDK393

Mac Don Clean Out Door

***Oversized Kit - Regular shipping + \$175.00**

Upgrade Opportunity:

Our 1/4" Gray UHMW clean out door adds strength and durability to an area that can certainly use it.

Replaces OEM Part# 220446

SHELBOURNE REYNOLDS SKID SHOE

Part #	Description	Price
APSRK395	31.5" x 26.06" Poly Skid Shoe Fits Shelbourne Reynolds XCV32 Heads OEM Skid #194395 - Includes Hardware	\$140.00 EA.

**Better than new
for less than new.
That's Real Value!**

NEW HOLLAND POLY LAST™ COMBINE SKIDS

New Holland 971/972/973 Floating Head

The adjustable front and rear hinge allow for a custom "glove" fit on almost any head, new or used. Now you don't have to settle for one of those "me too" kits.

For heads with panels supported by chains.

If panels are not supported by chains, Poly Skids will NOT fit.

It was true when we first printed it in 2007 and it's still true today!

Some products are just more “dependable” than others.

Dependable:

de pend a ble [di-pen-duh-buh!]

adj.

1. worthy of reliance or trust; "a reliable source of information" "a dependable worker" [syn: reliable]
2. worthy of being depended on; "a dependable worker"; "an honest working stiff"; "a reliable source of information"; "he was true to his word"; "I would be true for there are those who trust me"
3. consistent in performance or behavior; "dependable in one's habits"; "a steady-going family man"
4. financially sound; "a good investment"; "a secure investment"

For over 3 decades, PolyTech has proudly served you with the quality products and outstanding customer service that you demand. You work hard for your money, and at PolyTech we make items that are built to last, and built to help you improve your life. When quality counts manufacturers look to PolyTech, and so should you.

Why are PolyTech's product so dependable? It's simple... our products are better made, better fitting and built to last, and as always our products are proudly 100% American made.

You can “DEPEND” on PolyTech, and that's a promise.

Please have panel size and steel part number when ordering replacement panels.

Reduce Feeder House Noise and Improve Crop Flow!

Throat Liner: Poly Last™ floor improves feeding of crop and reduces noise created by metal on metal contact.

Drum Guards: Soft plastic, rubber like material covers the metal drum in chain area. Saves the chain from excessive wear on the drum and reduces noise.

Rails: Poly Last™ covers for existing metal rails. Helps prevent clattering of metal on metal as the bars on the feeder house chain hit the rails. Reduces wear on rails and bars. Reduces Noise.

Top Sprocket Stripper Plates: Replaces metal stripper plates with Poly Last™. Prevents chain wear normally associated with grooved metal plate and reduces metal to metal noise.

POLY LAST™ AUGER BED LINER FOR CASE IH

COMBINE 

DON'T PUT GRAIN ON THE GROUND

Buy Our Liners...

Holes develop in the bottom of your trough due to wear or more often due to corrosion. When holes develop, the grain drops straight to the ground under the combine. Why spend thousands on a replacement trough that is extremely difficult to remove and re-install?

Our Poly Last™ liners install much easier, offer excellent corrosion resistance, feed better, and are a far better solution than a patch or repair.

FOR CASE 1400 - 2588

Part #	Description	Price
ABCK4060	4 Auger Kit Fits Combine Models: 1440, 1460, 1470, 1640, 1644, 1660, 1666, 2144, 2166, 2344, 2366	\$662.00
ABCK80	5 Auger Kit Fits Combine Models: 1480, 1482, 1680, 1682, 1688, 2188, 2377, 2388, 2577, 2588	\$807.00
ABCK11	Single Inside Trough Kit	\$165.00
ABCK15	Single Outer Trough Kit	\$178.00

- Improve crop flow.
- Repair worn and corroded auger beds.
- Prevent future wear and corrosion.

POLY LAST™ AUGER BED LINER FOR JOHN DEERE

It's harsh in the belly of the beast. Repair it right with Poly Last™ so you only have to do it once.

Part #	Description	Price
ABJK071	4 Auger Kit Fits Combine Models: 9650STS, 9660STS, 9750STS, 9760STS, 9860STS, 9880STS	\$552.00
ABJK1138	SINGLE Auger Kit Fits Combine Models: 9650STS, 9660STS, 9750STS, 9760STS, 9860STS, 9880STS	\$143.00

PROTECT YOUR GRAIN TANK FROM CORROSION AND WEAR.

Poly Last™ Auger Liners for grain tanks cover the existing auger floor, and provide a slippery surface to keep grain feeding into the unloading auger faster and will not rust or corrode.

- Complete kit is quick & easy to install.
- Installs without removing augers. No welding.
- Replace only the auger liner with Poly Last™, not the entire floor.
- Poly liner "floats" under stainless strips allowing the poly to expand & contract without buckling.
- Stainless steel strips CNC cut for precise fit, allowing for accurate and quick positioning of hold down strips.
- 1/8" flexible UHMW poly is preformed to fit tightly against the grain tank floor.

Hold down strips are kit specific.
No small sections to piece together.

GRAIN TANK AUGER FLOOR LINER

JOHN DEERE SERIES

Part #	Description	Price

RETRACTABLE POLY AUGER FINGERS

Replace the original metal fingers in combine augers.

Broken metal fingers can do thousands of dollars of damage to rotors and cylinders. A bent metal finger can cut an auger in half before you have time to shut it down. Poly fingers bend 10° past the breaking point of metal before breaking. When poly fingers do break and pass through the combine they don't damage internal parts.

“Kits” include finger, quide and hardware.

You MUST replace guides when switching from metal to poly fingers.

**COMBINE****GRAIN GRABBER 2****Fits Most Grain Head Brands****Save Money ▲ Stop Slugging ▲ Less Grain Shatter**

- Allows reel to be run higher for less shatter.
- Reduces slugging.
- Allows you to run longer at night.

For pennies on the dollar, you can make your auger perform like a full-finger auger. With one Grain Grabber between each flight, you can run your reel higher and out of the crop which means less shattering. Your grain will feed more evenly with our Grain Grabber, reduce slugging and allow you to run longer at night.

Each Grain Grabber comes with its own hardware.

REVISED APPLICATION RECOMMENDATION

A small percentage of farmers are experiencing issues toward the center of the auger when using the Grain Grabber. The aggressive nature of the Grain Grabber and the build up of crop volume at the center of the auger can cause crop to be thrown out of the center of the header. The Grain Grabbers at the ends of the auger are doing a great job. If you expect a heavy crop you may want to reduce the number of Grain Grabbers at the center of your header.

Part #	Description	Price
ARGG201	Grain Grabber 2 - Black	\$32.00 ea.

SILL STITCH for JD 600 Series Flex Head

Repair & Reinforce for a fraction of the cost of replacing!

Sooner or later your Sill Plates
will look like this.
Don't wait. Fix it NOW!

Head Size	# Sill Stitch Required/Head
616	20
618	21
620	23
622	25
625	28
630	33
635	40

Part #: SSK2022 \$63.00/6 PK.

Includes plates and hardware.

- Repair worn out sill/feed plate connections.
- Prevent crop stalks from collecting and clogging header.
- Prevent damage from sill/feed plate coming loose.
- Reinforce main sill/feed plates to prevent shoulder bolts from breaking through.

GRAIN PLATFORM DEFLECTOR

Deflect grain from the front of the feed belt and prevent grain loss out of the front of the header, commonly seen at the end of each swath harvested.

STAINLESS DEFLECTOR FOR CASE IH 3152/3162 & NH 880CF

Part #	Description	Price
GPDCK001	Grain Platform Stainless Deflector	\$230.00

This deflector is made of two stainless steel parts, one right hand and one left hand. It bolts on using existing hardware.

Made of UHMW preformed poly, these auger wear shoes are designed to extend the life of the steel auger by covering new or worn steel auger flighting giving it strength and avoiding wear. There are over 300 sizes available. The 3/8" wear shoes are available in different diameters and pitches to fit most common augers. Some applications include combines, grain carts, transport augers, bins and grain handling systems; wherever high volume and wear are a problem.

All wear shoes include hardware for installation.

Description	Bolts per pitch	Price per Pitch

Fits 9450 Self Propelled, 9550, 9550 Self Propelled, 9650 Self Propelled, 9650 CTS Self Propelled, 9650STS, 9660STS, 9670STS, 9760STS, 9770STS, 9860STS, 9870STS & 9750STS, S550, S660, S670, S680, S690, S760, S770, S780 & S790 Combines	

Tailings Elevator Doors

Poly Tech Part # AEDJ786 replaces Factory Part # AH217786 (Door Width: 9.13")	\$90.00
Fits 9650STS, 9750STS, 9860STS, 9560STS, 9570STS, 9770STS, 9870STS, S550STS, S650STS, S660STS and S670STS Combines	
Poly Tech Part # AEDJ729 replaces Factory Part # AH234729 (Door Width: 6.3")	\$137.00
Fits S680STS & S690STS Combines	

POLY LAST™ CLEAN OUT DOORS FOR AGCO

Replaces Worn or Corroded Doors

- » Improves grain flow Outwears steel door
- » Reduces dirt & trash buildup Made from 1/4" Poly Last™
- » Stainless steel hardware

Poly Tech Part # AEDA529 replaces Gleaner OEM Part # 71500529. (Door width is 12 1/2")	\$207.00
Fits Gleaner R65, R66, R75, R76, and Serial #'s BHTV6101-CHTV7999 on S67 & S77 Combines	
Poly Tech Part # AEDA431 replaces Massey OEM Part # 71400431. (Door Width: 13")	\$220.00
MF 9690 COMBINE (EFF S/N HM87101) MF 9790 COMBINE (NA ==> HM36101) (SA ==> 000C979007S000002) MF 9895 COMBINE (HSC8101) MF 9895 COMBINE (HUC8E101-999) MF 9795 COMBINE & Fits 9520 Combines	
Poly Tech Part # AEDA525 replaces Massey OEM Part # 71400431. (Door Width: 12.635")	\$246.00

S67/S77 Super Series (2011-2014) (BHTV6101-EHTV7999), S68/S78/S88 Transverse (2014-2016) (EHTVX501-X999) (FHTVX101-X999) (GHTVX101-X999), S96 Transverse (2016) (GHTVX101-GHTVX999) (2017) (HHTV6101-HHTV6999) (2018-2024) (JHTV6101-RHTV6999), S97/S98 Transverse (2016) (GHTVX101-GHTVX999), S97 (2017) (HHTV7101-HHTV7999), S98 Transverse (2017) (HHTV8101-HHTV8999), S98 Transverse (2018-2024) (JHTV8101-RHTV8999), S98 Transverse (2018-2024) (JHTV8101-RHTV8999)

Protect your tracks or tires from today's tougher hybrid stalks. Poly Tech developed the Stubble Stopper to be the lightest unit on the market. At 22 lbs. per row they are 50% to 60% lighter than other models. The Stubble Stopper features a 10" wide by 1/2" thick Poly Last™ UHMW shoe mounted to a flexible spring and brackets using simple pin locations and polyurethane bumpers for easy height adjustment. The shoe assembly easily flips up for transport.

UNIVERSAL STUBBLE STOPPER KITS

Part #	Description	Price
SSUK001	Universal Kit for a SINGLE row	\$400.00 ea.
SSUK201	Universal Kit for 2 to 4 Rows	\$800.00 / pr.
	Universal Kit for 6 to 8 Rows	\$736.00 / pr.
	Universal Kit for 10 to 12 Rows	\$675.00 / pr.
	Universal Kit for 14+ Rows	\$600.00 / pr.

CORN HEAD AUGER TROUGH LINERS

CASE IH 2600, 4200 & 4400 SERIES

Part #	Description	Price
ACHCK020630	Liner for 2600, 4200, 4400 - 6 Row 30" Spacing	\$696.00
ACHCK020830	Liner for 2600, 4200, 4400 - 8 Row 30" Spacing	\$1020.00
ACHCK021230	Liner for 2600, 4200, 4400 - 12 Row 30" Spacing	\$1,233.00

CORN HEAD AUGER TROUGH LINER

When ordering please specify corn head model number, model number of combine it is attached to, feeder opening width, & any modifications made to the head. Liner will accommodate gaps up to 6" on heads with modified widths (i.e. custom narrow row heads). Liners can be installed over worn metal & holes in trough, if the holes do not exceed 3" in width by 18" in length. Installation does not require removal of the auger. Just raise the auger to its maximum height, install liner, & adjust the auger to the desired height.

CASE IH 800 SERIES

Part #	Description	Price
CHSGHK001	Snout Guards for Harvestec 4000 & 5000 Series	\$47.25 pr.

We'll have something new for this space next time.
Feel free to make notes or doodle here in the mean time...

The Corn Stalk Guide maneuvers your corn past the exposed gathering chain and sprocket, into the header.

Do you want to put more corn from your field in your hopper?

An after-market product, the patented Corn Stalk Guide attaches to the header snout, guiding the stalks past the gathering chain and idler sprocket, removing the risk of the shaking and throwing of corn back into the field, and allowing more valuable corn to continue to enter the corn head.

» Great for twin row heads.

» Attaches easily with included self-tapping screws.

» Made of UHMW for a durable, long lasting addition.

Part #	Description	Price per Row
KFCN-01202-1	20-22" Case-New Holland 2600 Series Corn Stalk Guide Row 6 1/2" length, 6 pre-drilled counter-sunk hole	\$ 96.00

Less corn on the ground, means more money in your pocket.

Poly Last™ covers will reduce drag, eliminate soil buildup on shank and shin and reduce or eliminate soil "blow out." This allows for a better seed bed and a more profitable crop.

KMC Ripper Shanks are available in THREE widths. To be sure you have the proper shin and/or cover, verify the steel shank number and choose the part numbers as follows:

KMC 67-080-213 Generation III

Part #	Description	Price
ARSCK213	Cover fits 1" Wide Shank	\$83.00
ARSS150C	Shin fits 1" Shank with cover	\$22.00
ARSS150WO	Shin fits 1" Shank without cover	\$22.00

KMC 67-080-001 Generation III

Part #	Description	Price
ARSCK001	Cover fits 1" Wide Shank	\$83.00
ARSS150C	Shin fits 1" Shank with cover	\$22.00
ARSS150WO	Shin fits 1" Shank without cover	\$22.00

KMC 16-080-291 Generation II

Part #	Description	Price
ARSCK291	Cover fits 3/4" Wide Shank	\$83.00

ARSAS100
10" metal adapter strip \$20.00
(Shin not included)

POLY LAST™ RIPPER SHINS & COVERS

TILLAGE

Why fight square, sheared off shank guards made from scrap? The radius on the edge of our Poly Last™ shank guard was designed to fit the contour of your shovel. It goes on easier and stays on better. Re-tighten less often without the worry of a lost shovel.

POLY TECH'S EXCLUSIVE RADIUS DESIGN...

- » Improves soil flow around shank.
- » Reduces drag and stress on equipment.
- » Protects expensive steel shanks.
- » Does not change shovel angle.
- » Sheds roots & soil to eliminate large buildups.

Part #	Description	Price
ASG09	1 3/4" x 9" Shank Guard fits Cultivators w/mounting hole centers: 1 5/8" to 2"	\$2.30
ASG10	2" x 10" Shank Guard fits Chisel Plow w/mounting hole centers: 1 3/4" to 2 1/2"	\$2.30
ASG12	Custom Shank Guard 1 3/4" x Up to 12" fits mounting hole centers: 1 5/8" to 2"	\$3.25
ASG13	Custom Shank Guard 2" x Up to 12" fits mounting hole centers: 1 3/4" to 2 1/2"	\$3.25

SQUARE EDGE SHANKS: Okay, so you don't care if your shank guards are square? We can make them that way too. These are the same shank guards as above with one exception, no radius edge. That saves us an operation in production and saves you money.

Part #	Description	Price
ASGE09	1 3/4" x 9" Shank Guard fits Cultivators w/mounting hole centers: 1 5/8" to 2"	\$1.80
ASGE10	2" x 10" Shank Guard fits Chisel Plow w/mounting hole centers: 1 3/4" to 2 1/2"	\$1.80

- » Pre-formed to fit housing contour.
- » Premium 1/4" Poly Last™ material.
- » Eliminates wear on bearing housing.
- » Eliminates buildup in sticky conditions.

HINIKER 6000 STRIP TILL RIDGING WING

Covers Hiniker Part # 810-002-124.

This cover attaches using the two existing 3/8" carriage bolts. The parts have counter bored holes making them left & right handed.

Part #	Description	Price Ea.
APRWH124L	Left Hand Ridging Wing	\$24.00
APRWH124R	Right Hand Ridging Wing	\$24.00

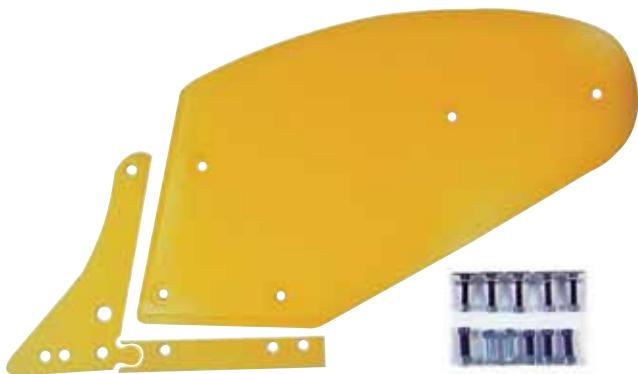

BEARING COVER FOR CASE IH ECOLO-TIGER® 875 DISK RIPPER

Fits HUB Case IH Part # 84536515

Poly Tech Part #: BCCETK515.....\$31.00

- Protects bearing housing from wear.
- Reduce soil buildup on bearing housing.

When ordering please specify the moldboard part number located on the back of your steel moldboard.

We will use this number to match the poly cover to your steel. All conventional moldboards come in kit form. Each kit contains: One moldboard cover, spacer for the point and shin, extra length bolts (for moldboards, point and shin) and installation instructions.

Part #	Description	Price

AMBL25S	Long 1/4" x 21 3/8" x 21 1/2" Kit	\$77.00
AMBB38	Baker (3/8" Reversible) Kit	\$105.00

Due to design, the bidirectional or switch plow produces far more drag than a conventional moldboard plow. Our Poly Last™ moldboards and covers have a super low coefficient of friction that dramatically reduces drag. Less resistance reduces soil flow and improves turn over. It also reduces stress on your equipment, improving fuel economy and reducing maintenance costs. These results are most noticeable in heavy or sticky ground but almost everyone can benefit from the addition of Poly Last™ moldboards and covers.

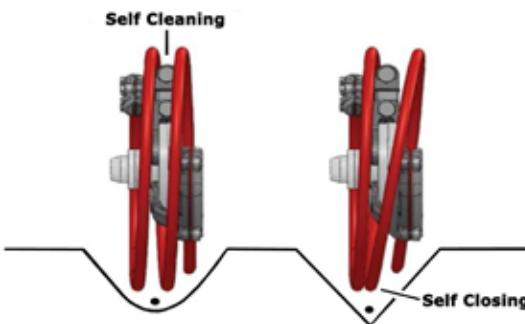

RYAN NT AUSPOINT COIL CLOSING & GAUGE WHEELS

SPRING

Poly Tech has now released the revolutionary Ryan NT (formerly RFM NT) Auspoint Coil Closing & Gauge wheel. A proven system that eliminates the day to day hassles of the conventional rubber tire system. Imagine a more even germination, overcoming cracking, no more replacing rubber tires, and minimal build up on your gauge and closing wheels. Proven in Australia and now successfully tested in twenty states by conventional and no-till farmers here in the USA.

This is the No Till and Conventional farmers dream.

JP Robertson - Bowling Green, KY
No-Till Planting

HD Gauge Wheel

JD Closing Wheel

Kinze Closing Wheel

New LD Gauge Wheel

A COMPLETE NEW REVOLUTIONARY COIL GAUGE & CLOSING WHEEL SYSTEM

PATENT PENDING

GAUGE WHEEL

- Self cleans.
- Overcomes replacing rubber tires.
- Keeps the dry soil away from the seed trench.
- Gives a smoother ride for better seed placement.
- Ideal for No Till or Conventional planting.

CLOSING WHEEL

- Overcomes cracking.
- Gives a better press.
- Can give a more even germination.
- Sifts the soil back over your furrow to retain moisture.

AMADAS HEADER BAND

PEANUT

Part #	Description	Price
PCAHB304	Fits Pull-Type models: 9797, 9897, 9997, 9998, 2100, 2108 & 2110 Fits Self-Propel models: 9965, 9865, 9965, 9900 & 9960	\$87.00

Replaces Amadas Part #124304 (Uses Existing Hardware)

- » 75% Lighter than the metal bands they replace!
- » Extends the life of fingers!
- » Poly flexes to withstand rough terrain!

Header Length	Required #	Price
12 Foot	31 Parts	\$2,697.00
16 Foot	43 Parts	\$3,741.00
18 Foot	49 Parts	\$4,263.00
19 Foot	53 Parts	\$4,611.00

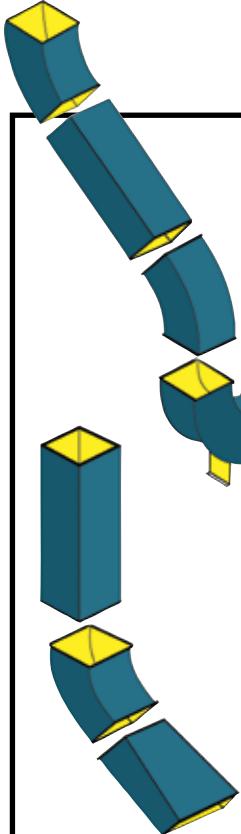

**We'll have something new for this space next time.
Feel free to make notes or doodle here in the mean time...**

PEANUT

RESTORE worn through
ducts to better than
new condition.

REDUCE soil build-up
and costly down time.

All kits include drill templates,
1/4" thick liners, drill bits,
Step by Step full color
instructions, and all necessary
hardware to line three sides of
each of the ducts shown.

Mating machined lap joints at
each connection insure proper
alignment and improved crop flow.

Stainless Steel transition
strips protect the leading
edge of the liner.

**Reduce excessive buildup
on the 4th side of the ducts,
often caused when running
in wet conditions or
harvesting green peanuts.**

POLY LAST™ PICKER SHOES

JOHN DEERE PICKER SHOE

Part #	Description	Price
ACPJ	Poly Last™ Picker Skid Shoe Fits Steel Part #N191622	\$26.50 / pr.
ACPJ420	Poly Last™ Picker Skid Shoe Fits Steel Part #N377420	\$26.50 / pr.

Poly skid shoes protect steel height-sensing shoe when operating in abrasive soils. They also eliminate mud buildup in wet, sticky conditions. Provides maximum shoe protection for longer wear. Unlike other picker shoes ours won't leave you flat. Our picker shoes are heat formed to fit your steel shoe and include mounting hardware.

CASE IH PICKER SHOE COVERS

Part #	Description	Price
ACPC100	Poly Tech Metal Skid replaces smaller factory skid. Bigger footprint for better sensing in wet sticky conditions.	\$68.00 pr.

POLY PICKUP BANDS

HAY

From This...

To This

- **FLEXIBLE**
- **LESS NOISE**
- **REDUCED TOOTH WEAR**
- **NO FADING, CRACKING or PEELING**

Don't see what you need?
Baler bands are
available for other models.
Please call for availability.

Poly pickup bands were developed to solve the problems custom balers were having with rocks and other objects continually bending their metal pickup bands. The goal was to eliminate the problem of bending and wearing. These bands are made heavy and will withstand impacts without damage and if pickup teeth rub against the bands, they will not wear through nearly as quickly as with steel bands. In addition, hay feeds through much more smoothly and easily. The 1/2 inch thick bands have a 1/4 inch support ring on the inside to strengthen and maintain shape. Longer bolts (included) are required to attach the poly bands.

IT'S AS EASY AS

1. Attach to hose.
2. Aim at catch receptacle.
3. Turn knob to release pressure.

Releases stored pressure in typical AG hydraulic lines. Simple to use and highly effective!

HPRT01

Hydraulic Pressure Relief Tool - \$69.00

Designed to accept ISO 5675 Pioneer Universal AG type connections - 1/2"

HPRT02

Flat Face Hydraulic Pressure Relief Tool - \$109.00

Fits 1/2" Flat Face Couplers (ISO 16028)

Fits these male side connectors

TRACK MAT

Stain, oil & chemical resistant!

This knee-saving 2 'x 4' foldable mat is a plush yet ultra-tough 3/4" thick foam pad fused with 100% polypropylene fibers. Stain, oil and chemical resistant, the Track Mat can withstand whatever you throw at it while effortlessly providing convenience and comfort. It's made of a similar material to that used in life jackets, so it won't retain water and can't mold or mildew. Use it as a pad to kneel on or as a lightweight and portable creeper to keep you comfortable and clean while you work.

Part #: BR2X4PT.....\$34.00

1.800.542.7659 or 1.706.468.2801

PHONE ORDERS - Our normal office hours are 8:00 am to 5:00 pm ET Monday - Friday. These hours may be extended during planting and harvest seasons, please call to verify. Please have credit card or account information ready to give to your customer service representative. Your account will not be charged until the order is shipped.

1.706.468.2881

FAX ORDERS - For Credit Card, C.O.D. and orders on Account you may fax your order 24 hours a day, 7 days a week. Orders received after 5:00 pm Eastern or on Fridays or Holidays will be processed the next business day. Please fill out sales order (sales orders available on request by fax) and fax to: 1-706-468-2881.

RETURNS - Items Not covered by our "No Hassle Guarantee" are subject to inspection upon return. If found to be in resalable condition we will issue a credit or return your money - less a 20% restocking fee. To return items covered by our "No Hassle Guarantee", please call customer service at 1-800-542-7659 or write for a Return Authorization Number within 12 months of invoice date. No return will be processed without a Return Authorization Number. Custom Orders are not returnable in most cases.

DEALERS - Net 30 days with approved credit. If paying by credit card, please pay at time of purchase to avoid a 4% service fee. Dealer pays actual shipping charges. Take discounts before freight charges are added. Call for Dealer programs. Online ordering now available!

SERVICE CHARGE - A Service charge of 1 1/2% per month will be applied to all unpaid balances over 30 days.

PRICES - Subject to change without notice. All shipments F.O.B. Origin unless prior arrangements made with Poly Tech.

SHIPPING - Place your order for any stock ground shippable product by Noon Eastern time and we will make every effort to ship it the same day. Place your order for any stock ground shippable product after Noon Eastern and we will make every effort to ship it by the next business day.

SHIPPING FROM OUR MINNESOTA WAREHOUSE

To provide you with faster delivery and lower freight costs, most orders can be shipped from our warehouse located in Gibbon, Minnesota.

NO HASSLE GUARANTEE

Poly Tech Guarantees for one full year from the date of purchase that our products:

- Perform as designed
- Save you time and money
- Meet your expectations

Or we will gladly arrange a refund or exchange, whichever you prefer.

FULL SERVICE AG

How may we help you?

- Improve your equipment efficiencies
- Lessen your downtime during harvest
- Reduce wear on your combine parts
- Lower your maintenance costs

Is there anything else we can do for you?

Full service ag at Poly Tech is not an object of the past like the full service gas stations. We do not compromise the quality of our products or reputation of our customer service. These family values and traditions run deep in our heritage as we continue to:

- Expand our product line
- Research equipment related needs
- Add dealers to increase our scope of service
- Stock product for immediate availability
- Communicate with our customers

**At Poly Tech Our Goal Is:
TOTAL CUSTOMER SATISFACTION**
