

Tired of waiting for the breeze to die down so you get your weeds under control? Ag Shield has the answer. With Ag Shield's solid shields drift becomes much less of a concern. You can spray where you want, when you want. Ag Shield sprayers are reasonably priced, with big sprayer features that will get your job done right.

With our unique boom hinge, you can spray uneven ground or ditches. With the large end wheel, high speed operation is possible even on rough ground.

Ag Shield will build the size you want to match your job. Five, ten, fifteen and twenty-two foot booms are standard, with others available on request. Sections are individually controlled with a panel that is easy to see and operate.

The booms fold easily and lock for transport. You can load it on a trailer or in the back of a pickup truck for longer moves.

Patented Shielded Boom

- Enclosed design eliminates drift.
- Unmatched spray accuracy
- Hinged boom allows for easy following of ground contour.

Spray Controls

- Integrated controls for all sprayer functions (standard feature)
