

Tired of waiting for the wind to die down so you get your weeds under control? Ag Shield has the answer. With Ag Shield's solid shields, spray drift becomes much less of a concern. You can spray where you want, when you want. Ag Shield sprayers are reasonably priced, with big sprayer features that will get your job done right.

Ag Shield will custom build the size you want to match your job! Five, seven, ten and fifteen foot booms are standard. Sections are individually controlled with a panel that is easy to see and operate.

Optional electric actuated end nozzles are available to spray fence lines or extend your spray reach.

## STANDARD FEATURES

- Patented Shielded Boom
- Boom Level System
- Agitator
- T-Jet 3 way rollover nozzle bodies
- 25, 50 or 66 gal total drain tank
- Chemical inductor

Optional high quality hand wand and 50 feet of hose on a swivel reel for spraying those hard to reach areas.
