BIG DOG[®]

— MOWER CO. —

WHO WE ARE

We founded BigDog® Mower Co. with one simple goal – build great mowers. Since 2009, we've built our mowers to the highest standards - assembled using the toughest parts and our own industry-leading, proprietary technology.

When it comes to building quality mowers, we don't mess around. From our custom seats to our fabricated decks, we integrate every system to make the smoothest riding and most dependable mower on the market.

We're loyal to our customers, ensuring you're supported before, during, and after a purchase via our experienced nationwide network of dealers and our industry-leading 7-year residential warranty.

If you demand a quality product for a competitive price, look no further, get a BigDog®.

AMERICAN QUALITY

At BigDog®, American workers build the best mowers on Earth. From engineering to assembly to our trademark red finish, we do it all from our headquarters in the Heartland. We combine the American innovative spirit with a do-it-right ethic to produce the best zero-turn mower money can buy. We haven't compromised on quality since our beginning, and we plan to keep it that way.

BIG DOG

WHY BIGDOG® IS A BETTER MOWER

PRECISION STEERING

This steering system has been developed with precise control to help trim and maneuver easily around obstacles. This steering system has been developed over decades of experience. Many have tried to reverse-engineer this design only to learn that it's not one component that makes it the best in the industry.

TOUGH FRAMES

Fabricated welded-steel frames, over-engineered front axles, and thick front forks with heavy-duty caster yokes ensure your mower can withstand whatever you throw at it. Our frames are tested for thousands of hours on grass and concrete test tracks with inclines and embankments.

SIMPLE DESIGN

Who wants something you can't work on yourself? More engineering doesn't always mean more parts or more complexity. Quite the opposite. We engineer our mowers to have fewer parts and more access points making them efficient and easy to maintain.

HEAVY-DUTY DECKS

Our fabricated welded-steel decks are designed to handle the harshest conditions. We use heavy-gauge steel and reinforced impact areas that prolong the life of the deck.

REX SERIES

IDEAL FOR
UP TO
1
ACRE

REX

Fabricated Frame for Durability

1" x 2" tubular steel frame making it one of the toughest and most durable in its class.

Welded Steel Deck

Available in 34" & 42", 11 ga. welded fabricated steel deck adds durability & extends the mower's life (compared to other brand's cheap stamped decks).

Precision Steering

Twin-Lever Steering makes maneuvering a breeze.

Foot Operated Deck Lift

Easily adjust the deck height between 1.5" - 4.5" with less effort than hand-operated levers found on other brands.

Tires

16" rear drive tires.

Pulley Covers

Toolless removable pulley covers for easy maintenance.

Service Friendly Design

Designed to make maintenance and service fast and easy.

Cut Height Adjustment
Hand operated lever and pin to adjust deck & cutting height.

Park Brake
Hand operated lever to set the park brake.

Up to 24" Rear Drive Tires
For superior traction.

Adjustable Speed Controls

So you can go at your own pace, also helps with training new operators.

Adjustable Foot Platform
Spring loaded suspension platform for all-day comfort.

Wide Operator Platform
For all day mowing comfort and operator stability.

TROOPER

The Perfect Choice Where Maneuverability is Top Priority

Maneuver around obstacles like the professional you are with BigDog's Trooper. Featuring superior comfort, operator-friendly controls, and a compact stance that make it easy to navigate in and out of tight spaces. Its smaller footprint also allows more mowers to fit on a trailer or in a storage area.

20" Drive Tires
For a smooth ride and enhanced traction.

Large Gas Tank
Fuel capacity of 3.4 gallons allowing for less downtime.

Power-Bar® Steering
Our patented steering is the easiest-to-use walk-behind system in the field. Precision control to help trim and maneuver easily around obstacles.

Wide Stance
For increased stability.

Deck Lift
Easy-to-operate deck lift makes deck height adjustment a breeze.

Ergo-Designed Controls

Designed with operator comfort in mind, the Power-Bar steering system reduces operator fatigue.

HIKE

A Walk-Behind with Maximum Stability - Ease-of-Control

Gain access to the hard-to-reach areas of properties with BigDog's Hike, a walk-behind zero-turn mower. Designed to help reduce operator fatigue with Power-Bar® steering and a wide stance, this walk-behind has maximum stability making it easier to control and even fun to operate. The BigDog Hike is a perfect addition to any commercial fleet.
