HEAVY DUTY RANGE: ULTIMATE WORK BOAT

This is a unique range of larger inflatables boats that is designed primarily to carry heavy loads at planing speed due to its trimaran FC hull shape equipped with lateral stabilizers. Heavy Duty range boats use heavy materials and are reinforced throughout making them suitable for extreme service. Even at sizes up to 7 m, they can still be rolled up into a bag and thrown into the back of a pickup truck or aircraft.

Zodiac Milpro is proposing the MK range Heavy Duty with a reinforced fabric, intercom valve system, large flow self-bailers and a sturdy long-shaft single or twin engine transom.
